Open File NFLD/3441 – Appendix B

Appendix B includes an Excel (.xlsx) file with one sheet that includes the results of the re-analysis and includes columns for the following fields in addition to the re-analyzed elements:

1. LAB_NUM – Lab number
2. FIELD_NUM – Field number
3. OPEN_FILE – Open File that has the source of the data
4. AREA – General sample collection area, numbered to match the areas of Figure 1 in the text
5. SULFIDATION – Classification of the epithermal deposit type (high or low sulfidation)
6. YEAR_ – Year the sample was collected
7. NTS_MAP – NTS map sheet the sample was collected on
8. UTMEAST – Universal Transverse Mercator Easting of the sample
9. UTMNORTH – Universal Transverse Mercator Northing of the sample
10. UTMZONE – Universal Transverse Mercator Zone
11. DATUM – DATUM (North American Datum – NAD27)
12. LONG_NAD27 – Longitude in the NAD27 datum
13. LAT_NAD27 – Latitude in the NAD27 datum
14. FRACTION_U – Sieve fraction used for the original analysis
15. RERUN_FRACTION – Sieve fraction used for the re-analysis

*Detection limits for each of the elements are included in the second row of the table. Negative values represent numbers that are below the detection limit of the instrument.
