

# BAIE VERTE AREA REHABILITATION

## 3 YEAR, 10.1 MILLION DOLLAR PROGRAM TO:

- Address immediate safety concerns; and
- Gather sufficient information to make a decision on the feasibility and affordability of full rehabilitation of the sites
- Major mining issues are not part of the current program:
  - asbestos in waste rock and tailings at Baie Verte Mines; nor
  - acid water generation at Rambler.

### Former Consolidated Rambler Copper Mine Site

Shaft to be capped at Rambler

East Mine - After Demo

Chemical Removal at Rambler

### Former Baie Verte Mines Asbestos Mine Site

Baie Verte Mines - Dry Rock Storage
