TERRAIN SCIENCES

1. **M.J. Batterson and R.C. Taylor** Quaternary geology of the upper Humber River area, western Newfoundland..... 1
2. **D. Bragg** Assessment of bedrock for aggregate use..... 11
3. **D.G.E. Liverman, D.L. Forbes and R.A. Boger** Coastal monitoring on the Avalon Peninsula..... 17
4. **S. Scott** Surficial geology and drift exploration of Comfort Cove—Newstead and Gander River map areas (NTS 2E/7 and 2E/2)..... 29
5. **L. St. Croix and S. Vatcher** Urban geology of the northeast Avalon..... 43
6. **D.M. Taylor** Late Wisconsinan ice-flow patterns in southwestern Newfoundland..... 47

REGIONAL GEOLOGY—NEWFOUNDLAND

7. **W.D. Boyce and J.S. Ash** New Silurian—Devonian (?) faunas from the Gander (NTS 2D/15) and Botwood (NTS 2E/3) map areas..... 53
8. **S.P. Colman-Sadd** Silurian subaerial rocks near Lewisporte, central Newfoundland..... 65
9. **T. Dec and H.S. Swinden** Lithostratigraphic model, geochemistry and sedimentology of the Cottrells Cove Group, Buchans—Robert's Arm Volcanic Belt, Notre Dame Subzone 77
10. **W.L. Dickson** Geology of the southern portion of the Botwood map area (NTS 2E/3), north-central Newfoundland..... 101
11. **J.P. Hayes** Analytical accuracy: a review of analyses of the standards SY-2 and MRG-1 from departmental records..... 117
12. **R.A. Hughes and B.H. O'Brien** Syndepositional transport on a deep-marine slope and soft-sediment reworking of detritus from an exhumed Iapetan arc: evidence from the Upper New Bay Formation of the Exploits Group..... 135
13. **A. Kerr** Magmatic, hydrothermal and surficial processes in the development of multicoloured dimension-stone granites of the Topsails Plateau area (NTS 12H/02)..... 147
14. **I. Knight** Fisher Hills bluestone: a Carboniferous flagstone/ledgestone deposit..... 167
15. **I. Knight** Geology of Cambrian—Ordovician platformal rocks of the Pasadena map area (NTS 12H/4)..... 175
16. **S.J. O'Brien** On the geological development of the Avalon Zone in the area between Ocean Pond and Long Islands, Bonavista Bay (parts of NTS 2C/5 and NTS 2C/12)..... 187
17. **S.H. Williams and B.H. O'Brien** Graptolite biostratigraphy within a fault-imbricated black shale and chert sequence: implications for a triangle zone in the Shoal Arm Formation of the Exploits Subzone..... 201

ECONOMIC GEOLOGY

18. **D.T.W. Evans and M. Wilson** Epigenetic gold occurrences in the eastern Dunnage Zone, Newfoundland: preliminary stable-isotope results..... 211

19. A.F. Howse Industrial potential of the Silver Mountain marble deposit, western Newfoundland	225
20. R.R. Miller Extreme Na-depletion in the peralkaline volcanic rocks of the Middle Proterozoic Flowers River cauldron complex, Labrador.....	233
21. C. Saunders Volcanic metallogenic database: an overview of its application and data.....	247
22. H.S. Swinden and F. Santaguida Sulphide occurrences in clastic sedimentary rocks in the Howse Zone, western Labrador.....	253
23. P. Tallman and D.T.W. Evans Geology of stibnite mineralization at the Hunan Line prospects, central Newfoundland.....	263
24. J. Meyer and E. Montague Soapstone in the Hopedale area, Labrador.....	273

GEOCHEMISTRY / GEOPHYSICS

25. P.H. Davenport, L.W. Nolan and P. Honarvar The digital geochemical atlas of Newfoundland	279
26. G.J. Kilfoil and P.A. Bruce A digital geophysical atlas: implications for its design and construction.....	301
27. J.W. McConnell Detailed survey of stream-sediment and water geochemistry, northern Labrador.....	313
28. L.W. Nolan and P.A. Bruce Digital terrain model of the Island of Newfoundland.....	327

REGIONAL GEOLOGY—LABRADOR

29. A.C. Cadman and A.B. Ryan An investigation of some metamorphosed dykes of the Nain area, Labrador: Part 2—geochemistry of the Akkuneq dykes of the Dog Island region.....	333
30. C.F. Gower, T. van Nostrand, D. Evans-Lamswood Geology of the Pinware River region, southeast Labrador.....	347
31. D.T. James and K.L. Mahoney Structural, metamorphic and intrusive relations in the Hinterland of the eastern Churchill Province, western Labrador.....	371
32. K.R. Royse, R.G. Park and A. Cadman The geology of the area around Nukasusutok Island, southeast of Nain (including Paul Island and Sandy Island).....	387
33. R.J. Wardle, D. Bridgwater, F. Mengel, L. Campbell, M.J. Van Kranendonk, A. Hauman, R. Churchill and L. Reid Mapping in the Torngat Orogen, northernmost Labrador: Report 3, the Nain Craton (including a note on ultramafic dyke occurrences in northernmost Labrador).....	399
34. D.H.C. Wilton The Mugford Group, northern Labrador, revisited: notes from a continuing study.....	409
35. D.H.C. Wilton, S.M. Archibald, A.M. Hussey and R.W. Butler, Jr. Metallogeny of the Ramah Group: discovery of a new Pb—Zn exploration target, northern Labrador.....	415
36. G.A.G. Nunn Reconnaissance geology of the Kanairiktok River headwaters, Labrador.....	429
