REGIONAL GEOLOGY – LABRADOR	
1. C.F. Gower and S. Kamo The age of the Mokami Hill ("Old Mokami") quartz monzonite, Grenville Province, eastern Labrador	1
2. D.T. James The Archean Hunt River greenstone belt, Hopedale Block, eastern Labrador (NTS 13N/7 and 13N/10): Geology and exploration potential	9
3. B. Ryan, A. Hynes and I. Ermanovics Geology of the Nain Plutonic Suite and its country-rock envelope, Alliger Lake area (NTS 14E/1), Labrador	29
MINERAL DEPOSITS	
4. A.F. Howse From refractories to dimension stone: Industrial minerals field activities in 1996	49
5. A. Kerr A discussion of controls on magmatic base-metal mineralization, with application to northern Labrador	57
6. A. Kerr and J.L. Smith The search for magmatic Ni–Cu–Co mineralization in northern Labrador: A summary of active exploration programs	73
GEOCHEMISTRY / GEOPHYSICS	
7. J.E. Carter, S.H. Williams and G.A. Jenner Trace- and rare-earth-element geochemistry of the Lawrence Harbour Formation, Exploits Subzone: Preliminary report	93
8. J.W. McConnell Soil and stream geochemistry of the Florence Lake greenstone belt, Labrador	101
9. S.J. Piercey, G.A. Jenner and D.H.C. Wilton The stratigraphy and geochemistry of the southern Pacquet Harbour Group, Baie Verte Peninsula, Newfoundland: Implications to mineral exploration	119
GEOGRAPHIC INFORMATION SYSTEMS	
10. J.S. Ash and S.P. Colman-Sadd Digital geological maps of insular Newfoundland	141
TERRAIN SCIENCES	
11. M.J. Batterson and J. Janes Stratigraphy of Late Quaternary sediments exposed in coastal cliffs, west of Stephenville	151
12. D. Bragg and S. Langdon Bedrock aggregate assessment, south-central Newfoundland	167
13. D. Liverman Quaternary geology of the Goose Bay area	173
