

ERRATUM

The Introduction of "The Stratigraphy and Geochemistry of the Southern Pacquet Harbour Group, Baie Verte Peninsula, Newfoundland: Implications for Mineral Exploration", by S.J. Piercey, G.A. Jenner and D.H.C. Wilton (Current Research, Report 97-1) was incorrect. The following correction is made:

These rock types are, and have been, prolific hosts to over **4.7 million tonnes** of Cu-Zn-±Au±Ag volcanogenic massive-sulphide mineralization (VMS) that have been mined from six different deposits over the last 50 years (Dimmell, 1996).

Rather than:

These rock types are, and have been, prolific hosts to over **47 million tonnes** of Cu-Zn-±Au±Ag volcanogenic massive-sulphide mineralization (VMS) that have been mined from six different deposits over the last 50 years (Dimmell, 1996).
