MINERAL DEPOSITS

1. **J. Conliffe** Geological setting and genesis of high-grade iron-ore deposits in the eastern Labrador Trough. 1
2. **C. Donaldson, R. Sood, A. Barth, H. Christie and A. Kerr** Geological relationships in northwestern Fogo Island and their implications for the timing of orogenic events. 27
3. **J.G. Hinchey** The geology and genesis of the Keating Hill Fe–Ti–V prospect, Main Gut intrusion (NTS map areas 12A/05 and 12B/08), western Newfoundland. 43
4. **A. Kerr** Sm–Nd isotopic geochemistry of rare-earth-element (REE) mineralization and associated peralkaline granites of the Strange Lake intrusion, Labrador. 63
5. **H.A.I. Sandeman and V.J. McNicoll** Age and petrochemistry of rocks from the Aucoin gold prospect (NTS map area 13N/6) Hopedale block, Labrador: Late Archean, alkali monzodiorite–syenite hosts Proterozoic orogenic Au–Ag–Te mineralization. 85
6. **G.W. Sparkes and G.R. Dunning** New U–Pb age constraints on the development of uranium mineralization within the Central Mineral Belt of Labrador. 105
7. **A. Valvasori, M.L.D. Fonkwe, S.J. Piercey and J. Conliffe** Orthomagmatic Fe–Ti–V oxide mineralization hosted in Paleoproterozoic anorthosite in the Cape Caribou River allochthon, Grenville Province, southeast Labrador: Preliminary results. 125
8. **G.J. Stapleton, J.L. Smith, M.D. Schofield and T. Adams** Mineral Inventory Database: Web server statistics. 139

REGIONAL GEOLOGY

9. **A.M. Hinchey, I. Knight, G. Kilfoil and L. Hicks** Geological overview and hydrocarbon potential of Cambrian–Ordovician strata of the outer Humber Zone, western Newfoundland. 143
10. **A.J. Mills and H.A.I. Sandeman** Preliminary litho-geochemistry for mafic volcanic rocks from the Bonavista Peninsula, northeastern Newfoundland. 173
11. **T.S. van Nostrand** Litho-geochemistry of ultramafic, gabbroic and tonalitic rocks from the northeastern Archean Ashuanipi Complex, western Labrador: Implications for petrogenesis and mineral potential. 191

TERRAIN SCIENCES

12. **S.D. Amor** Comparison of lake-sediment results from Labrador and adjacent Québec: Preliminary results. 215
13. **S.D. Amor and M.J. Ricketts** Lake-sediment and water-sampling survey in the Kyfanan Lake region, southeastern Labrador. 243
14. **D. Brushett** Till-geochemistry sampling and Quaternary mapping in south-central Newfoundland, Eastern Pond (NTS 2D/11) and Miquel’s Lake (NTS 2D/12) map areas. 253

CONTENTS

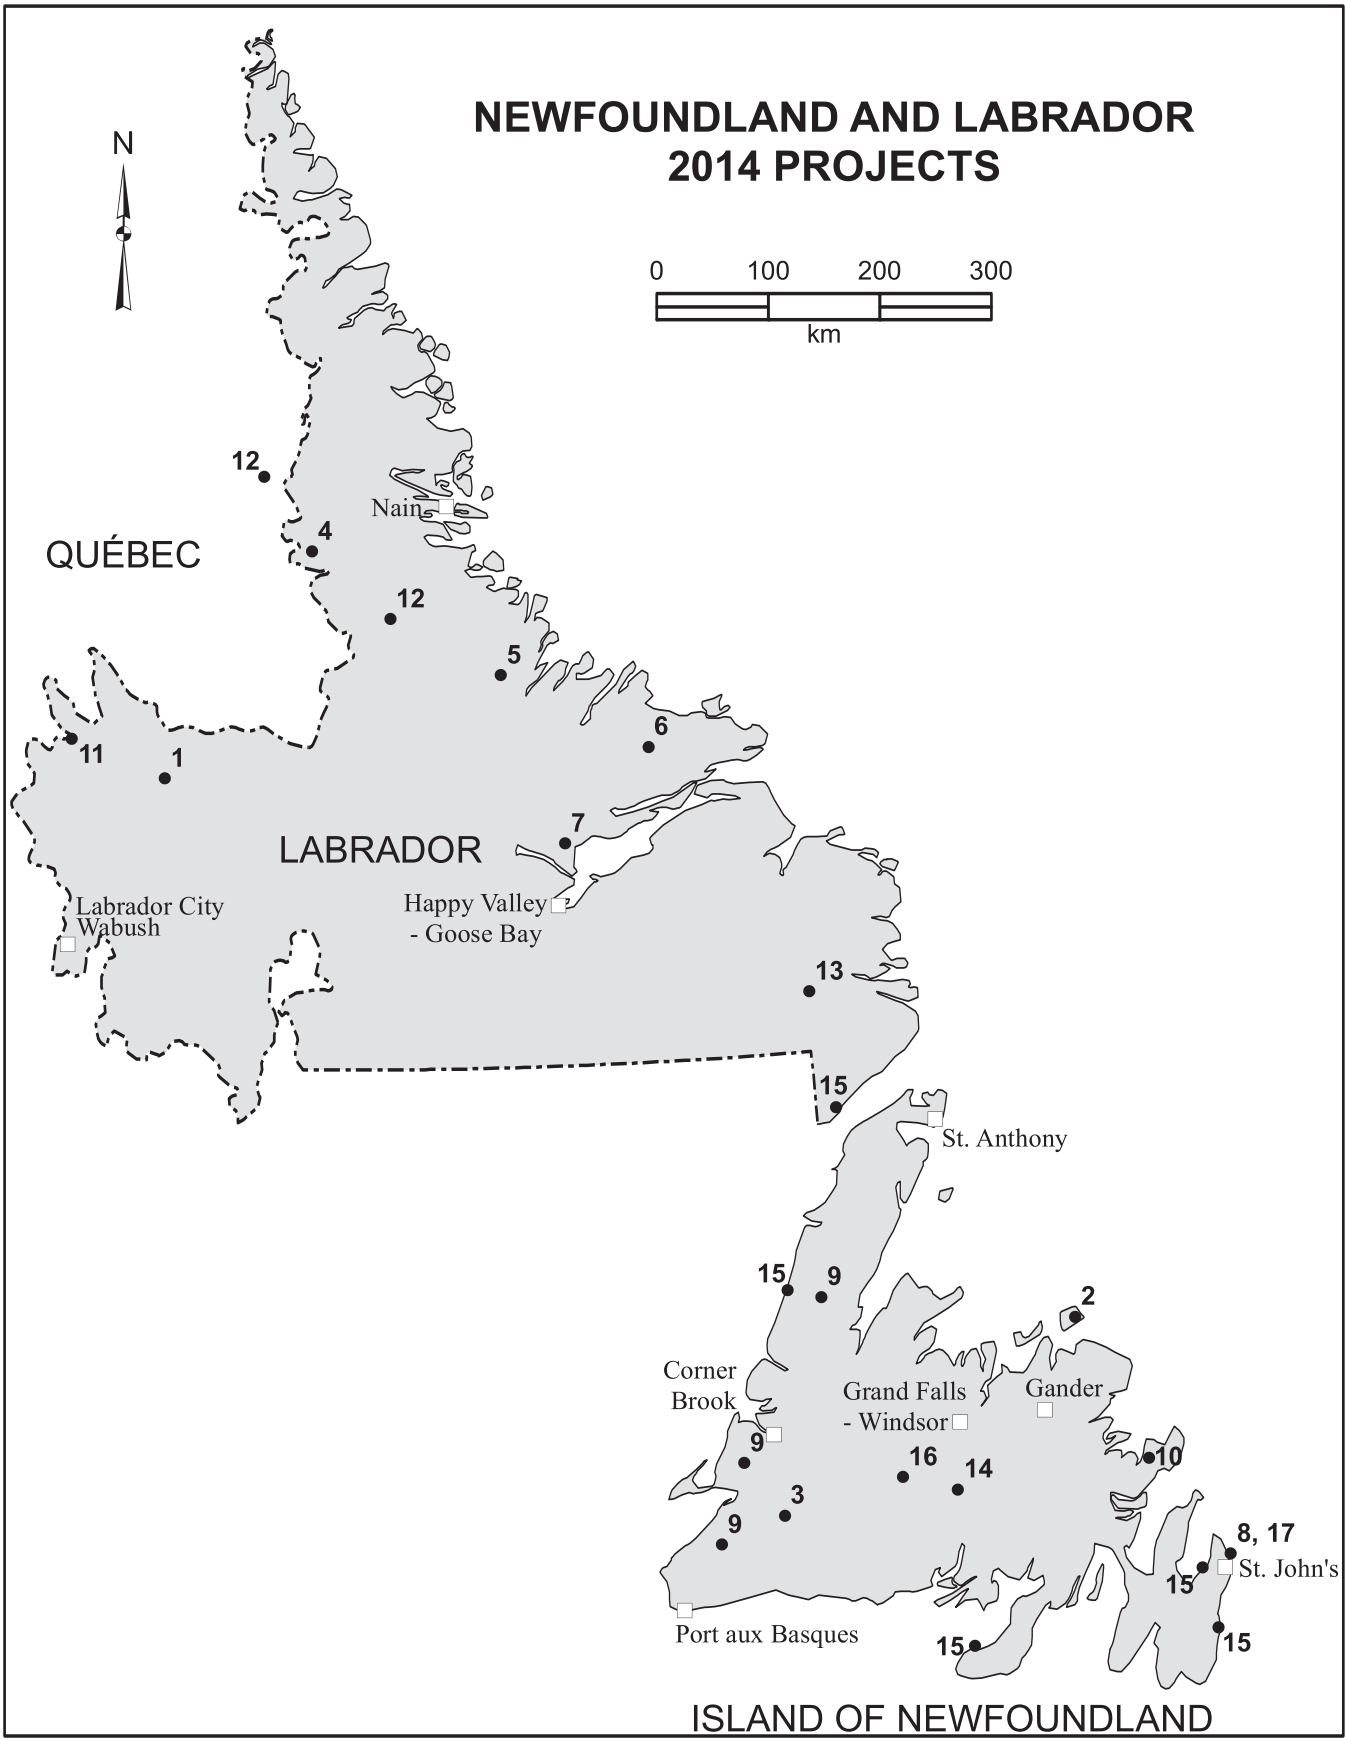

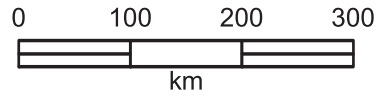

Page

15. **M.L. Irvine** Monitoring coastal change in Newfoundland and Labrador: 2014 update. 263
16. **S. Primmer, T. Bell and M. Batterson** The role of ice dynamics on drift dispersal in the Newfoundland Ice Cap: Preliminary investigations. 277

GEOSCIENCE DATA MANAGEMENT

17. **P. Honarvar, L.W. Nolan, L. Crisby-Whittle, G. Roberts and S. Duquet** The New Geoscience Atlas 287
