

SECOND VERTICAL DERIVATIVE OF THE MAGNETIC FIELD

This aeromagnetic survey and the production of this map were funded by the Newfoundland and Labrador Department of Natural Resources, Energy Branch, through the Offshore Geoscience Data Program (OGDP). The OGDP is administered jointly by the Department of Natural Resources and Nalcor Energy Oil and Gas. Project management was provided by the Geological Survey of Canada with direction by the Energy Branch (Lori Cook) and the Geological Survey of Newfoundland and Labrador (Gerry Kilfoil), Newfoundland and Labrador Department of Natural Resources.

Ce levé aéromagnétique et la production de cette carte ont été financés par le ministère des Ressources naturelles de Terre-Neuve-et-Labrador (Energy Branch), par l'entremise du programme «Offshore Geoscience Data Program» (OGDP). L'OGDP est administré conjointement par le ministère des Ressources naturelles et Nalcor Energy Oil and Gas. La gestion du projet a été assurée par la Commission géologique du Canada, conformément aux directives du ministère des Ressources naturelles de Terre-Neuve-et-Labrador (Energy Branch (Lori Cook) et Newfoundland and Labrador Department of Natural Resources (Gerry Kilfoil)).

SECOND VERTICAL DERIVATIVE OF THE MAGNETIC FIELD DÉRIVÉE SECONDE VERTICALE DU CHAMP MAGNÉTIQUE

Scale 1:100 000 - Échelle 1/100 000

Auteurs : Dumont, R. et Jones, A.

The figure is a map of the Arctic region, centered on the Beaufort Sea. A dashed rectangular box highlights the study area, which includes the Beaufort Sea and parts of the Chukchi Sea to the west. The map shows the coastline of North America and the location of the Mackenzie River. A red dot marks the location of the study area. The map uses a grid system with latitude and longitude lines.
