Paladin, through its wholly-owned subsidiary Aurora Energy Ltd (Aurora), holds a 55% interest in 69,825 hectares of mineral licences located within the Central Mineral Belt of Labrador.

The Michelin Project claims cover a significant area of prospective ground over the Central Mineral Belt. The claims are also coincident with a total of 127.8 Mlb of Mineral Resources across 6 deposits. The largest of these deposits is Michelin, the flagship deposit of the Project, which contains a [total resources](#) of 92Mlb uranium, 82.2 Mlb of which is classified Measured and Indicated.

A positive [Preliminary Economic Assessment](#) was announced in September of 2009.
