INTRODUCTION

This report is a review of specific activities in 2014 of the Matty Mitchell Prospectors Resource Room project and its programs. The principal focus of the Resource Room project is to provide mentoring, technical support and promotional assistance to prospectors in Newfoundland and Labrador.

Please read the [Overview](#) for details of the inception, funding sources, governance, general principles and mandate of the Matty Mitchell Prospectors Resource Room.

If you are interested in learning more about us and the various activities we pursue, contact us at matty@gov.nl.ca or visit [our website](#):

*Sean O'Brien, P. Geo., Chair
Management Committee
Matty Mitchell Prospectors Resource Room*

Prospectors and Others Supported by the Matty Mitchell Prospectors Resource Room in 2014

In 2014, the MMR provided mentoring, technical support and promotional assistance to more than 123 individual prospectors, from all parts of Newfoundland and Labrador who made over 636 requests either through personal visits, email enquiries or telephone calls (Appendix 1). These services are freely provided to clients. Many visitors browsed our sample collection housed in the Resource Room and the Matty Mitchell Sample Library. Information services were also provided, gratis, to the public and to representatives of local and national exploration companies.

The MMR helped prospectors with sample and mineral identification, data interpretation and presentation, selection and refinement of target areas, generation and further advancement of new prospects, and re-interpretation of existing prospects. We help prospectors compile information packages, which are then circulated at mining and exploration conferences in Vancouver (Roundup), Toronto (PDAC) and St. John's (Mineral Resources Review). These information packages are distributed by the MMR and the prospectors to interested companies as follow-up throughout the year. These efforts helped prospectors attract new mineral exploration to the Province in 2014.

The MMR also had several visitors from out-of-province who were interested in geo-tourism or in casual prospecting and rock-hounding. Appendix 1 lists individuals who were directly assisted during this time; many visited or requested assistance on multiple occasions:

Junior exploration companies active in the province were assisted in a more indirect way through the MMR promotional activities across Canada during 2014. For example, the following companies had properties included in the MMR's Properties for Option Maps and Properties for Option Booklet:

Cornerstone Resources Inc.
Trinity Resources and Energy Ltd
Sokoman Iron
Clode Sound Resources
Thomas Resources Inc.

Altius Minerals Corp.
Triple Nine Resources Inc.
New Island Resources Inc.
Metals Creek Resources
South Coast Ventures

PROSPECTOR SUPPORT: MINERAL INDUSTRY TRADE SHOWS AND CONFERENCES

In 2014, the MMR continued its major role of providing logistical support for prospectors attending local and national, mineral exploration and mining conferences and trade shows. Assistance was provided to prospectors prior to, during and following the events. The MMR also, where possible, assists those who cannot attend by promoting their properties at these meetings.

The MMR was a participant and/or exhibitor in the following 2014 industry meetings:

- **Mineral Exploration Roundup, Vancouver, January 26th to 29th**
- **PDAC, Toronto, March 2nd - 5th**
- **Baie Verte Mining Conference, June 6th and 7th**
- **Mining Industry NL Investment Forum, September 22nd and 23rd**
- **Montreal, XPLOR 2014, October 21st - 23rd**
- **Mineral Resources Review, St. John's November 5th - 8th**

The Resource Room worked in conjunction with Mining Industry NL and the Geological Survey and Mineral Development divisions of the Mines Branch at these meetings, focusing on individual prospect promotion and promotion of the province in general as a region to invest in mineral exploration and development. In the Toronto and Vancouver meetings, the MMR availed of space provided by Mining Industry NL to display Property Posters described above.

Roundup Conference, January, 2014

Four prospectors attended the Roundup Conference, 2014, in Vancouver, B.C: two, David Hicks and Wayde Guinchard, were funded to go to the Roundup by Mining Industry NL and the Department of Natural Resources. Two other prospectors, Darrin Hicks and Lai Lai Chan were self-funded.

Conference attendees in the Newfoundland Rock Room at Roundup 2014

Conference Attendees at the Newfoundland/Labrador Booth, PDAC 2014

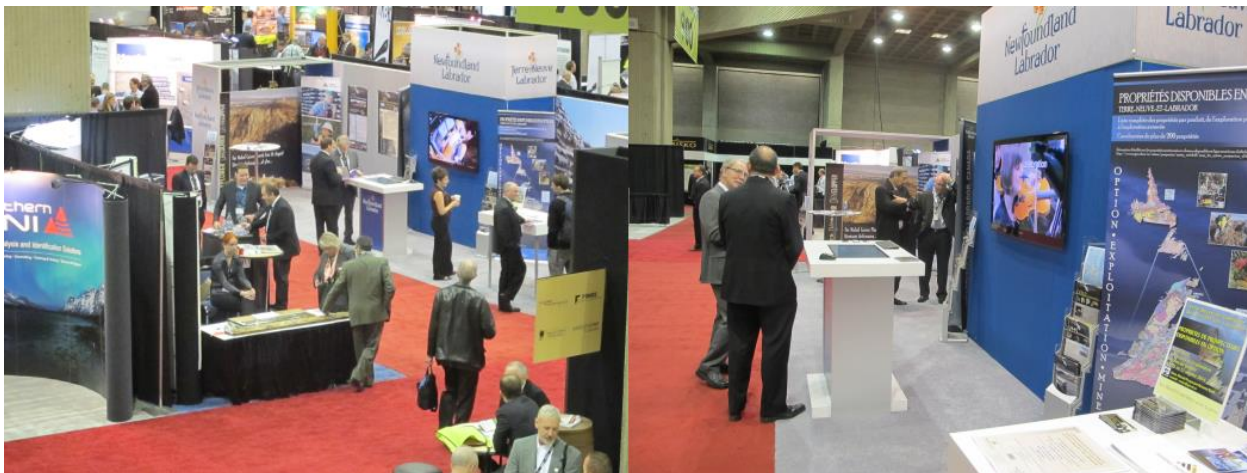

PDAC Conference, March, 2014

A group of 12 prospectors (listed below with some of their properties and main commodities) were funded jointly by Mining Industry NL and the Department of Natural Resources to attend the PDAC in Toronto. With a registration of over 25,000 people from every mining corner of the world, the PDAC provides an excellent venue for prospectors from Newfoundland and Labrador to meet face-to-face and network with professionals from the mining industry, potential optionors of prospectors' properties.

Montreal, XPLOR 2014, October

QMEA (Quebec Mineral Exploration Association) brought together investors, exploration companies, prospectors and service providers for the Québec mining industry event. The MMR geologist attended this event to help promote NL prospectors and their properties.

Attendees at the XPLOR 2014 Mining Trade Show and Conference, Montreal

Baie Verte, June, 2014

The MMR geologist attended the 27th Annual Baie Verte Mining Conference held in Baie Verte to represent the Matty Mitchell Prospectors Resource Room.

Attendees at the Baie Verte Conference, 2014

St. John's, November, 2014

Mineral Resources Review is Eastern Canada's largest mineral industry conference and trade show, attended by about 1000 delegates, trade show exhibitors and visitors. The event showcases all aspects of the mineral exploration and mining industry in Newfoundland and Labrador. More than 20 prospectors from the province had booth space at the trade show; the MMR geologist prepared posters and had rock samples cut and polished for these prospectors to promote their properties.

Attendees at the Annual Review, 2014

Other Conferences

St. John's, MINL Resource Investors Forum, September 22nd and 23rd, 2014

The MMR geologist attended the Resource Investors Forum held by MINL. This annual event provides access to leading industry analysts and members of the investment community to prospectors and mining industry execs in NL. Attendees also have the opportunity to hear presentations on Newfoundland and Labrador projects from mineral exploration and mining company executives.

Prospectors Option Agreements 2014

In 2014, at least 1 option agreement was finalized between prospectors and a mineral exploration company in the province. Some of the critical contacts, which result in successful option agreements, are typically made at meetings such as Roundup and PDAC. Prospectors play a major role in attracting companies to the province; companies, which, in some cases, have never worked here before. In some cases, prospectors are the first point of contact between these new companies and the Newfoundland and Labrador business community.

Prospectors: Commodity Markets and New Discoveries

Prospectors in Newfoundland and Labrador continue to add to the growing database of mineral prospects in the province. Several prospectors made important new discoveries in 2014: examples include Clyde Burt and partners, who discovered significant, new V-Ti-Cu mineralization in gabbros near the Gander Bay Highway and

also a new gold showing near Bellman's Pond several km west of the Gander Bay Highway; the Stockley brothers from Gambo have discovered new Ni-Cu-Awarite showings north of Square Pond.

PROMOTIONAL SUPPORT SERVICES

Property Poster Series

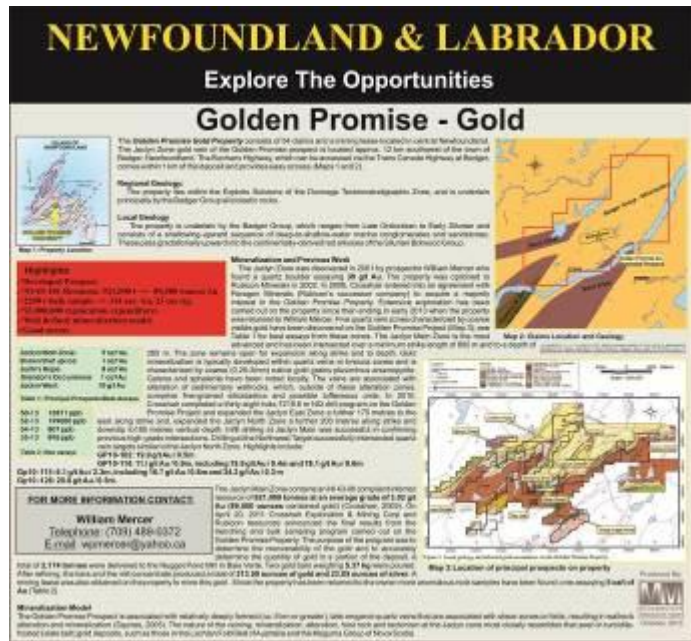

The MMR Property Poster Series continues to be an important aid to prospectors in promoting and optioning their properties. We currently maintain a growing digital library of more than 245 posters of prospectors' properties. These are available, upon request, in digital or hard copy format. The current collection can be examined [here](#).

PROMOTIONAL MAPS AND BOOKLETS

In 2014, the “Properties for Option” maps, Booklet and CD - ROMs were updated for distribution and display at the local and national conferences described above. These publications are available on the “Properties for Option” CD-ROM and for viewing or download on the [MMR website](#).

LINKS WITH THE SOCIETY OF ECONOMIC GEOLOGISTS

Volunteers from the MUN branch of the SEG kindly provided on-site support to the Matty Mitchell Booth and were available to assist prospectors in the promotional displays. This collaboration is to our mutual benefit, and to that of the prospectors we support.

Student Members from MUN volunteering at the Matty Mitchell Booth, Mineral Resources Review

PARTICIPATION IN PROSPECTOR TRAINING COURSES

- *Stephenville, June 3rd - 5th, 2014*

The MMR geologist was available for a portion of the 24th annual two-week long Prospectors Training Course in Stephenville, to meet the new prospectors and give a presentation on the importance and the role of the Matty Mitchell Prospectors Resource Room and how prospectors can make the best use of this facility.

Prospectors at the Annual Stephenville Prospecting Course, 2014

- *St. John's, 5th November, 2014*

The Annual Pre-Conference, one-day prospectors' course was held immediately prior to the Mineral Resources Review 2014. This year's course entitled "**Geochemistry for Prospectors: Some Alternative Methods to Assist in Discovery**" was given by Shawn Ryan and Derek Wilton. Yukon Prospector Shawn Ryan is credited with discovering Dawson's White Gold District and sparking a new Yukon gold rush, the biggest since gold was discovered in the Klondike Gold Rush of the late 1800s. Shawn is also stimulating the industry with new methods for mineral exploration, including the use of drones. Derek Wilton is a professor at Memorial University where he teaches Economic Geology. The MMR geologist helped to organize this one-day course.

OUTREACH - “Newfoundland and Labrador Prospectors Association”

In September of 2014, the third Annual General Meeting of the new “Newfoundland and Labrador Prospectors Association” (NLPA) was held in Mt Pearl. The MMR geologist was present for the AGM with a poster, rock and mineral display, as part of its outreach activities for the Resource Room.

Prospectors discussing issues at the 2014 NLPA AGM in Mount Pearl

SAMPLE LIBRARY AND OTHER RESOURCES

New rock samples from across the province were added to the collection in 2014. Prospectors are encouraged to come and browse through our selection of rocks and minerals and take pictures of the samples to help with identification of rocks in the field.

PUBLIC AWARENESS INITIATIVES and OUTREACH

As in past years, the MMR continued to undertake public awareness initiatives to help promote prospecting and the possibilities of new economic development linked to the minerals industry. The MMR once again collaborated with Mining Industry NL and the Geological Survey in displaying prospecting information at the Baie Verte Mining Conference and the Expo Labrador Conference. In late March, 2014, the MMR geologist made a presentation to a group of 3rd year MUN students interested in prospecting. The event was organized jointly by Norm Mercer of the NLPA and Steve Piercey of MUN.

The MMR continues to develop outreach initiatives to promote itself and its services to the public.
