

**Real-Time Water Quality Monitoring Network
Calibration and Maintenance Schedule
ECC Stations – Churchill River**

The water quality probe is periodically removed to undergo necessary maintenance and calibration. Some of these removals are necessary to perform scheduled maintenance while others may be done in response to sudden fouling of the sensors or loss of calibration.

The maintenance/calibration process involves removing the water quality probe from the water body for cleaning, replacement of sensors and fluids, calibration and testing in a temperature-controlled laboratory. This usually takes place over a period of two days but may take longer for specific sites or to address unique problems.

NF03OE0054 – Churchill River at English Point

Item Number	Date and time instrument was removed (mm/dd/yy)		Date and time instrument was reinstalled (mm/dd/yy)		Reason	Remarks
1			05/27/11	20:21		Initial installation after winter months
2	06/29/11	17:00	06/29/11	17:00	Maintenance/Calibration	
3	08/03/11	8:50	08/03/11	8:55	Maintenance/Calibration	
4	09/01/11	8:00	09/01/11	8:00	Maintenance/Calibration	
5	10/05/11	13:00	10/05/11	13:00	Maintenance/Calibration	
6	11/02/11	20:00			Winter Removal	Removed for winter months
7			06/29/12	17:10		Initial installation after winter months

NF03QA0047 – Lake Melville East of Little River

Item Number	Date and time instrument was removed (mm/dd/yy)		Date and time instrument was reinstalled (mm/dd/yy)		Reason	Remarks
1			05/27/11	18:15		Initial installation after winter months
2	06/30/11	08:53	06/30/11	10:17	Maintenance/Calibration	
3	08/03/11	07:53	08/03/11	08:00	Maintenance/Calibration	
4	09/02/11	20:00				Instrument removed due to damage from surf action
5			06/29/12	16:20		Initial installation after winter months
6	07/25/12	10:16	07/25/12	10:20	Maintenance/Calibration	
7	08/22/12	10:45	08/22/12	10:45	Maintenance/Calibration	
8	09/26/12	11:25	09/26/12	11:25	Maintenance/Calibration	
9	10/24/12					Instrument removed for winter months
** Water quality instrument not deployed for 2013 or 2014 field seasons due to unsuitable deployment options; will reinvestigate and aim for redeployment in 2015 field season **						
** Water quality instrument was deployed in a buoy on Lake Melville from July 2015 to November 2015; the buoy sustained significant damage**						
** Water quality instrument was deployed in buoy on Lake Melville from July 2016 to Sept 2016 **						
** Water quality instrument was not deployed in buoy on Lake Melville in 2017 field season **
