

Government of Newfoundland and Labrador
Department of Environment and Conservation

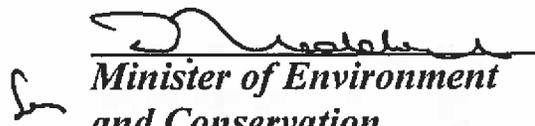

Pesticide Operator Licence

Pursuant to *The Environmental Protection Act SNL 2002 cE-14.2*
and *The Pesticides Control Regulations, 2012*
and subject to the attached stipulations, this licence
is issued to :

Agriculture & Agri-Food Canada

Valid From
April 09, 2014
to
April 09, 2019
Valid Categories
Agriculture

Licence No. 14-005

*Minister of Environment
and Conservation*

Pesticide Operator Licence - Terms and Conditions

Agriculture & Agri-Food Canada

PESTICIDE OPERATOR LICENCE NO: 14-005

EFFECTIVE DATE: April 09, 2014

EXPIRY DATE: April 09, 2019

1. DEFINITIONS

- Buffer:** means a defined space within which treatment is excluded and which extends a set distance outward in all directions from the boundary of an area designated for protection.
- Human habitation:** means every structure in which a person or persons resides on either a part-time or full time basis.
- Lawn:** means a plot of grass that is maintained at a regular and approximately uniform height through periodic and regular mowing.
- Penstock:** means a pipeline leading from the intake to the turbines.
- Private property:** means land owned or leased by an individual, group of individuals or other legal entity such as a company or corporation, for which clear title has been granted, and for which a record exists either through the Registry of Deeds or Crown Lands.
- Right-of-Way (ROW):** means an easement, granted by the land owner that permits the construction and operation of a utility corridor for the purpose of transmitting electricity. The utility corridor may be of varying lengths and widths.
- Water body:** means any surface (high water mark) or subterranean source of fresh or salt water within the province, whether such course usually contains water or not, and includes coastal water within the jurisdiction of the province and includes water above the bed of the

sea that is within the jurisdiction of the province, any river, stream, brook, creek, wetland, water course, lake, pond, spring, lagoon, ravine, gully, canal and any other flowing or standing water and the land usually or at the time covered by any such body of water.

"water" means all water located in or derived from a body of water;
Water Resources Act

Well: means an artificial opening in the ground from which water is obtained or that is made for the purpose of exploring for or obtaining water.

2. LEGISLATION

- (1) For the purpose of this licence, all definitions and regulations as indicated in the *Environmental Protection Act SNL 2002 cE-14.2* and the *Pesticides Control Regulations, 2012* shall apply.
- (2) All applications shall be conducted in strict compliance with the label registered under the authority of the *Pest Control Products Act (Canada)*.

3. PESTICIDE OPERATOR RESPONSIBILITY

- (1) The operator shall be limited to using only those pesticides (See Appendix A), applicators (See Appendix B) and vehicles (See Appendix C) as indicated on its pesticide operator licence application dated **February 06, 2014**. Any changes in the program outlined in the application must receive the written approval of the manager, Pesticides Control Section, prior to their implementation.
- (2) The operator shall review these terms and conditions with each applicator prior to the start of each season, and a copy of the terms and conditions shall be provided to each applicator.
- (3) A copy of the operator's licence and these terms and conditions shall be available at each site during the application of a pesticide.
- (4) The operator shall ensure that all applicators have their pesticide applicator licences in their possession while applying pesticides unless otherwise indicated by the Pesticides Control Section.
- (5) Upon completion of the pesticide program for the year the operator shall submit to the Pesticides Control Section:
 - (a) details regarding the type and quantity of each pesticide used, and
 - (b) the name of the vendor/s from whom the pesticide was purchased.

This information shall be submitted no later than **December 31** of each year. Licences for the following season will not be processed until this information is received.

- (6) The operator shall ensure that all application equipment is maintained in good working order to prevent damage to the environment and/ or injury to individuals working with or near the equipment.

4. VEHICLES

- (1) All vehicles used during the application of pesticides for landscape, structural or industrial vegetation management programs shall have the registered/ incorporated company name, or any other name under which this company trades, **as per this pesticide operator licence**, prominently displayed on the vehicle. The name shall be displayed on both the driver and passenger sides of vehicle.
- (2) Concentrated pesticides transported in a vehicle during spray operations shall be contained in a lock box, a secure area or compartment which must be locked while unattended.
 - (a) Pesticides shall not be transported in the passenger compartment of any vehicle.
- (3) A quantity of approved absorbent materials shall be on hand at all times in case of a spill. The vehicle shall also carry clean-up equipment including but not limited to, shovels, brooms, and bags/buckets.

5. SPILL REPORTING

- (1) All spills involving greater than 70 litres of mixed pesticide or the equivalent of unmixed formulation shall be reported immediately.
- (2) All spills involving mixed or unmixed pesticide into a water body or within 100 meters of a water body, well or area frequented by people shall be reported immediately.
- (3) Spills involving less than 70 litres of mixed pesticide or equivalent amount of unmixed formulation in areas not frequented by people, and remote from water bodies or wells shall be duly recorded by the operations supervisor. Records of all such incidents (spills) shall be kept on file by the operator. These records should include details such as date of spill, location, product and quantity, employee on site, and clean up procedure. These records should be submitted to the Pesticide Control Section with the annual summary.
- (4) Reporting of spill incidents shall be made to the Pesticides Control Section, St. John's (ph.1-800-563-6181) and to Environment Canada, St. John's (ph.709-772-2083).

6. CONTINGENCY PLAN

A copy of the operator's contingency plan shall be carried in all vehicles transporting liquid pesticide formulations and at the entrance of the operator's approved pesticide storage area.

The contingency plan shall include:

- Section 1 - Emergency Telephone Numbers
- Section 2 - Spill Reporting Instructions
- Section 3 - Emergency First Aid Procedures from Pesticide Labels
(as listed in Appendix A of this document)
- Section 4 - Pesticide Spill Procedure
- Section 5 - Spill Response Kit
- Section 6 - Protocol to Respond to Fires
- Section 7 - Protocol to Respond to Theft
- Section 8 - First Aid Procedures for Pesticide Poisoning
- Section 9 - Pesticide Labels or Material Safety Data Sheets (MSDS)
(as listed in Appendix A of this document)

7. STORAGE

- (1) All pesticide storage sites shall meet the requirements of Section 21 of the *Pesticides Control Regulations, 2012* which are as follows:
 - (a) A source of water in an area in or adjacent to the storage area;
 - (b) Approved safety equipment as required which is properly maintained, functional and available at all times for personnel handling and working with pesticides;
 - (c) Flooring which shall not contain a floor drain or catch basin which is directly or indirectly connected to a private or municipal sewage system or public water course;
 - (d) Flooring which shall be capable of being readily cleaned and decontaminated of pesticides stored within;
 - (e) Adequate ventilation by either natural or mechanical means so as to prevent the accumulation of toxic or flammable vapours;
 - (f) A "Danger Stored Pesticide" sign posted on all entrances which is printed in block letters 5 centimetres or more in height;
 - (g) Clean-up procedures consistent with the instructions of the minister or a person designated by the minister; and
 - (h) Other provisions which may be stipulated on the licence by the minister or person designated by the minister.
- (2) In addition to the above storage requirements, each pesticide storage site shall have prominently displayed on all entrances contact telephone numbers for:
 - (a) the operator and
 - (b) the Department of Environment and Conservation, Pesticides Control Section, and indicated accordingly.

- (3) All entrances to storage sites shall be locked when the owner or an employee of the owner is not present.
- (4) Pesticides shall be stored in their original container or a substitute container approved by the manufacturer. Substitute containers shall be labelled appropriately.

8. PROTECTIVE EQUIPMENT

The operator shall provide and ensure that all personnel involved in the mixing, loading, and application of pesticides wear appropriate protective equipment in accordance with the pesticide manufacturer's product label and/or material safety data sheet.

9. DISPOSAL

- (1) Empty pesticide containers which have been triple rinsed, cleaned and rendered unusable may be disposed of at an approved waste disposal site.
- (2) Contaminated material shall be disposed of in accordance with the manufacturer's directions and in consultation with the Pesticides Control Section.

10. WEATHER CONDITIONS

- (1) All exterior spraying activities, except foliar applications of insecticides to trees taller than three (3) meters, are permitted only when:
 - (a) wind speeds are between 2 and 15 km/h,
 - (b) air temperatures are below 25° C,
 - (c) the relative humidity is above 50%, and
 - (d) it is not raining nor is rain anticipated over the next 2 hour period.
- (2) Foliar applications of insecticides to trees taller than three (3) meters, are permitted only when:
 - (a) wind speeds are between 2 and 10 km/h,
 - (b) air temperatures are below 25° C,
 - (c) the relative humidity is above 50%, and
 - (d) it is not raining nor is rain anticipated over the next 2 hour period.
- (3) All exterior granular pesticide applications are permitted only when:
 - (a) air temperatures are below 25° C,
 - (b) the relative humidity is above 50%, and
 - (c) it is not raining nor is rain anticipated over the next 2 hour period.

- (4) Exceptions to weather conditions may be granted on a case by case basis. Contact the Pesticides Control Section for details.

11. PUBLIC NOTIFICATION

The operator shall ensure that public notification programs are carried out as per the applicable attachment to these terms and conditions.

12. BUFFER ZONES

The operator shall adhere to all buffer zones indicated in the applicable attachment.

13. ADDITIONAL STIPULATIONS

The operator shall adhere to all additional conditions stipulated in the applicable attachment.

14. REVOCATION

If an operator, its agent, employee or a licensed pesticide applicator under its control, fails to comply with the *Environmental Protection Act SNL 2002 cE-14.2*, the *Pesticides Control Regulations, 2012* or the stipulations attached to its operator licence, the Minister of Environment and Conservation may suspend, revoke, or cancel the subject licence and/or prosecute under the *Environmental Protection Act SNL 2002 cE-14.2*.

15. OFFENCE

An operator, his or her agent, employee or a licenced pesticide applicator under his or her control who does not comply with a term or condition of his or her licence or who contravenes the *Environmental Protection Act SNL 2002 cE-14.2* or the *Pesticides Control Regulations, 2012* is guilty of an offence.

- 16.** The Department of Environment and Conservation reserves the right to amend the terms and conditions of this licence at any time.

APPENDIX A PESTICIDE LIST

Agriculture & Agri-Food Canada

PESTICIDE OPERATOR LICENCE NO: 14-005

These are the only pesticides that have been approved for storage and use except as noted below for this pesticide operator licence. The operator is not permitted to purchase, apply, store or otherwise handle pesticides not on this list.

If you require additional pesticides, please submit the form, "Request for Additional Pesticide(s)", to Fax # (709) 729-6969 or in writing to:

Agriculture Pesticide Applicator Licence Terms and Conditions

Definitions

- Agriculture licence:** for the use of pesticides by ground application
- (i) for the production of agricultural products, including berries, grains, forage crops, grapes, seed crops, ornamentals, tree seedlings, tree fruits, vegetables in fields, orchards or shelter belts, pastures and rangelands,
 - (ii) for the control of noxious weeds, birds and rodents,
 - (iii) for aquatic weed control in dugouts with no outflow,
 - (iv) on Christmas tree plantations,
 - (v) to control livestock and poultry pests,
 - (vi) for on-farm seed treatment,
 - (vii) for soil fumigation, except methyl bromide,
 - (viii) for pest control around farm buildings associated with crop and livestock production, and
 - (ix) excluding pesticide use in greenhouses or commercial seed treatments;
- Buffer Zone:** a strip of land between the area to be protected and the pesticide treatment area for preventing entry of pesticides or pesticide residues by drift into the area to be protected;
- Certified applicator:** means a person who has obtained a certificate for applying pesticides, which is recognized by the minister;
- Direct Supervision:** means to be physically present on-site and have close contact whereby the supervisor is able to respond quickly to the needs of the supervisee;

Human habitation: means every structure in which a person or persons resides on either a part-time or full time basis;

Pesticides Control Section: staff of the Department of Environment and Conservation whose responsibility is to ensure compliance with the provincial pesticide legislation, as set out under the *Environmental Protection Act SNL 2002 cE-14.2* and *Pesticides Control Regulations, 2003*;

Unlicensed assistant: a pesticide applicator using or applying a pesticide under a pesticide applicator licence, agriculture and greenhouse category, may allow a person who does not have a licence to apply a pesticide and shall, with respect to that unlicensed person employed by, contracted to or working with that applicator

- (a) ensure that that person, when carrying out activities under the Act or regulations, is under his or her direct supervision and control; and
- (b) be responsible for the actions and conduct of that person with respect to anything required to be carried out in accordance with the Act or regulations;

Water body: means any surface (high water mark) or subterranean source of fresh or salt water within the province, whether such course usually contains water or not, and includes coastal water within the jurisdiction of the province and includes water above the bed of the sea that is within the jurisdiction of the province, any river, stream, brook, creek, water course, lake, pond, spring, lagoon, ravine, gully, usually or at the time covered by any such body of water;

Well: means an artificial opening in the ground from which water is obtained or that is made for the purpose of exploring for or obtaining water.

LEGISLATION

1. For the purpose of this licence, all definitions in the *Environmental Protection Act SNL 2002 cE-14.2* and the *Pesticides Control Regulations, 2003* and regulations under those Acts shall apply.
2. All applications shall be conducted in strict compliance with the label registered under the authority of the *Pest Control Products Act* (Canada).

PESTICIDE APPLICATOR RESPONSIBILITY

3. The applicator shall review these terms and conditions with any unlicensed assistant, farm owner or those who may enter the treated area for work or other purposes.
4. All applicators shall have their pesticide applicator licence in their possession while applying pesticides unless otherwise indicated by the Pesticides Control Section.
5. A copy of these terms and conditions shall be available at each site during the application of a pesticide.
6. Applicators shall keep records of annual pesticide purchases and usages as part of maintaining the farm's Pesticide Use Records.

UNLICENSED ASSISTANTS

7. An applicator may employ unlicensed assistants to provide help in carrying out the activities for which that person has been licensed under the regulations.
 - (a) The applicator is responsible for the activities of an unlicensed assistant in connection with the use, storing or application of a pesticide.
 - (b) An unlicensed assistant shall comply with the safety measures required under the Act and regulations made with respect to pesticides.
 - (c) The applicator shall ensure that that person, when carrying out activities under the Act or regulations, is under his or her direct supervision and control.

TRANSPORTATION

8. Only persons holding a valid pesticide applicator licence may transport concentrated non-domestic pesticides.

- (a) Pesticides must be in the original manufacturer's sealed container; packaged in a manner to prevent spillage; and transported in a lock box, secure area or compartment which must be locked while unattended.
- (b) Pesticides shall not be transported in the passenger compartment of any vehicle.
- (c) Pesticides must be transported and stored separate from foodstuffs, feeds, or other material intended for consumption by humans or animals.
- (d) Special precautions or warnings that appear on the label of a pesticide package must be strictly adhered to.

STORAGE

- 9. All pesticide storage sites must meet the requirements of Section 13 of the *Pesticides Control Regulations, 2003* which provides that a storage area shall have:
 - (a) A source of water in an area in or adjacent to the storage area;
 - (b) Approved safety equipment as required which is properly maintained, functional and available at all times for personnel handling and working with pesticides;
 - (c) Flooring which shall not contain a floor drain or catch basin which is directly or indirectly connected to a private or municipal sewage system or public water course;
 - (d) Flooring which shall be capable of being readily cleaned and decontaminated of pesticides stored within;
 - (e) Adequate ventilation by either natural or mechanical means so as to prevent the accumulation of toxic and/or flammable vapours;
 - (f) A "Danger Stored Pesticide" sign posted on all entrances which is printed in block letters 5 centimetres or more in height;
 - (g) Clean-up procedures, materials and equipment available to cleanup spills or leakage;
 - (h) Security procedures consistent with the instructions of the minister or person designated by the minister.
- 10. In addition to the above storage requirements, each pesticide storage site shall have prominently displayed on all entrances contact telephone numbers for:
 - (a) the applicator and
 - (b) the Department of Environment and Conservation, Pesticides Control Section, and indicated accordingly (1-800-563-6181 or 729-3395).
- 11. All entrances to the storage must be locked when the applicator is not present.

12. Pesticides shall be stored in their original container or a substitute container approved by the manufacturer. Substitute containers shall be labelled appropriately.

NOTIFICATION

13. During the application of a pesticide, applicators shall take reasonable measures to discourage access to areas being treated. Signs may be posted in treated areas or an area close to the farm entrance may be designated as a notification area advising persons requiring access to the fields to check which areas have been treated.
14. Label requirements regarding re entry shall be strictly adhered to.

PROTECTIVE EQUIPMENT

15. The applicator shall ensure that all personnel (themselves and any unlicensed assistant) involved in the mixing, loading, and application of pesticides, wear appropriate protective equipment in accordance with the pesticide manufacturer's product label and/or Material Safety Data Sheet.

MIXING/LOADING/RINSING

16. All pesticide mixing and rinsing sites shall be located a minimum of 30 meters from the nearest water body. Loading of equipment with **water only** prior to the addition of pesticides can be done up to 5 meters from a water body. Addition of pesticides to the water in the equipment shall be performed at least 30 meters from the nearest water body.
17. Where water must be pumped directly into the formulation tank from a water body, an anti-backflow device must be fitted onto the pump and the siting should be such that the formulating unit is at least 30 meters from the water body. The pesticide shall not be opened for addition to the formulation tank until the equipment has been filled with water and is out of the respective buffer zone.
18. While mixing, loading or using pesticides a quantity of approved absorbent materials must be on hand in case of a spill.

WEATHER CONDITIONS

19. All exterior spraying activities are permitted only when wind speeds are between 2 and 15 km/h, air temperatures are below 25°C, the relative humidity is above

50% and it is not raining nor is rain anticipated over the next 2 hour period, unless otherwise indicated on the label for efficacy.

Exceptions to weather conditions may be granted on a case by case basis. Contact the Pesticides Control Section for details.

20. All exterior granular pesticide applications are permitted only when air temperatures are below 25°C, the relative humidity is above 50% and it is not raining nor is rain anticipated over the next 2 hour period, unless otherwise indicated on the label for efficacy.

BUFFER ZONES

21. The applicator shall take appropriate measures to ensure pesticides will not contaminate water bodies or wells.
22. Pesticide applications are not permitted within 10 meters of a neighbouring property.
23. Pesticide applications are not permitted within 30 meters of a neighbouring well.
24. All directions for establishing buffer zones indicated on the pesticide labels must be followed.
25. Voluntary compliance is requested for a buffer zone of 10 meters from the boundary of all public spaces. These include:
- (a) property of the government of the Province of Newfoundland and Labrador;
 - (b) property of the government of Canada;
 - (c) hospital or nursing home;
 - (d) personal care homes;
 - (e) schools;
 - (f) child care operations; and
 - (g) green spaces, including parks, sport fields, ball fields, soccer pitches and public swimming pools.

SPILLS

26. All spills involving greater than 70 litres of mixed pesticide or the equivalent of unmixed formulation shall be reported immediately.
- (a) All spills involving mixed or unmixed pesticide into a water body or within 70 meters of a water body, well or area frequented by people shall be reported immediately.

- (b) Spills involving less than 70 litres of mixed pesticide or equivalent amount of unmixed formulation in areas not frequented by people, or remote from water bodies or wells shall be cleaned up and duly recorded by the applicator.
- (c) Records of all such incidents (spills) shall be kept on file by the applicator. Reports of spill incidents shall be made to the Pesticides Control Section, St. John's (ph.1-800-563-6181) and to Environment Canada, St. John's (ph.709-772-2083) within 48 of a spill.

DISPOSAL

- 27. Empty pesticide containers which have been triple rinsed, cleaned and rendered unusable may be disposed of at an approved waste disposal site. Contaminated material shall be disposed of in accordance with the manufacturer's directions and in consultation with the Pesticides Control Section.

REVOCATION

- 28. Failure by a licensed pesticide applicator or an unlicensed assistant under the control of a licensed pesticide applicator to adhere to the *Environmental Protection Act SNL 2002 cE-14.2*, the *Pesticides Control Regulations, 2003* or the terms and conditions of this licence may result in suspension, revocation or cancellation of this licence and prosecution under the *Environmental Protection Act*.
