and *The Pesticides Control Regulations, 2012*  
and subject to the attached stipulations, this licence  
is issued to :

**K & C Pest Control Ltd.**

Valid From  
August 31, 2016  
to  
November 10, 2020

**Valid Categories**

**Structural**

**Licence No. 16-179**

  
**Minister of Environment  
and Conservation**

## **Pesticide Operator Licence - Terms and Conditions**

**K & C Pest Control Ltd.**

**PESTICIDE OPERATOR LICENCE NO: 16-179**

**EFFECTIVE DATE: August 31, 2016**

**EXPIRY DATE: November 10, 2020**

### **1. DEFINITIONS**

- Buffer:** means a defined space within which treatment is excluded and which extends a set distance outward in all directions from the boundary of an area designated for protection.
- Human habitation:** means every structure in which a person or persons resides on either a part-time or full time basis.
- Lawn:** means a plot of grass that is maintained at a regular and approximately uniform height through periodic and regular mowing.
- Penstock:** means a pipeline leading from the intake to the turbines.
- Private property:** means land owned or leased by an individual, group of individuals or other legal entity such as a company or corporation, for which clear title has been granted, and for which a record exists either through the Registry of Deeds or Crown Lands.
- Right-of-Way (ROW):** means an easement, granted by the land owner that permits the construction and operation of a utility corridor for the purpose of transmitting electricity. The utility corridor may be of varying lengths and widths.
- Water body:** means any surface (high water mark) or subterranean source of fresh or salt water within the province, whether such course usually contains water or not, and includes coastal water within the jurisdiction of the province and includes water above the bed of the

sea that is within the jurisdiction of the province, any river, stream, brook, creek, wetland, water course, lake, pond, spring, lagoon, ravine, gully, canal and any other flowing or standing water and the land usually or at the time covered by any such body of water.

"water" means all water located in or derived from a body of water;  
*Water Resources Act*

Well: means an artificial opening in the ground from which water is obtained or that is made for the purpose of exploring for or obtaining water.

## 2. LEGISLATION

- (1) For the purpose of this licence, all definitions and regulations as indicated in the *Environmental Protection Act SNL 2002 cE-14.2* and the *Pesticides Control Regulations, 2012* shall apply.
- (2) All applications shall be conducted in strict compliance with the label registered under the authority of the *Pest Control Products Act* (Canada).

## 3. PESTICIDE OPERATOR RESPONSIBILITY

- (1) The operator shall be limited to using only those pesticides (See Appendix A), applicators (See Appendix B) and vehicles (See Appendix C) as indicated on its pesticide operator licence application dated **July 20, 2016**. Any changes in the program outlined in the application must receive the written approval of the manager, Pesticides Control Section, prior to their implementation.
- (2) The operator shall review these terms and conditions with each applicator prior to the start of each season, and a copy of the terms and conditions shall be provided to each applicator.
- (3) A copy of the operator's licence and these terms and conditions shall be available at each site during the application of a pesticide.
- (4) The operator shall ensure that all applicators have their pesticide applicator licences in their possession while applying pesticides unless otherwise indicated by the Pesticides Control Section.
- (5) Upon completion of the pesticide program for the year the operator shall submit to the Pesticides Control Section:
  - (a) details regarding the type and quantity of each pesticide used, and
  - (b) the name of the vendor/s from whom the pesticide was purchased.

sea that is within the jurisdiction of the province, any river, stream, brook, creek, wetland, water course, lake, pond, spring, lagoon, ravine, gully, canal and any other flowing or standing water and the land usually or at the time covered by any such body of water.

"water" means all water located in or derived from a body of water;  
*Water Resources Act*

Well: means an artificial opening in the ground from which water is obtained or that is made for the purpose of exploring for or obtaining water.

## 2. LEGISLATION

- (1) For the purpose of this licence, all definitions and regulations as indicated in the *Environmental Protection Act SNL 2002 cE-14.2* and the *Pesticides Control Regulations, 2012* shall apply.
- (2) All applications shall be conducted in strict compliance with the label registered under the authority of the *Pest Control Products Act* (Canada).

## 3. PESTICIDE OPERATOR RESPONSIBILITY

- (1) The operator shall be limited to using only those pesticides (See Appendix A), applicators (See Appendix B) and vehicles (See Appendix C) as indicated on its pesticide operator licence application dated **July 20, 2016**. Any changes in the program outlined in the application must receive the written approval of the manager, Pesticides Control Section, prior to their implementation.
- (2) The operator shall review these terms and conditions with each applicator prior to the start of each season, and a copy of the terms and conditions shall be provided to each applicator.
- (3) A copy of the operator's licence and these terms and conditions shall be available at each site during the application of a pesticide.
- (4) The operator shall ensure that all applicators have their pesticide applicator licences in their possession while applying pesticides unless otherwise indicated by the Pesticides Control Section.
- (5) Upon completion of the pesticide program for the year the operator shall submit to the Pesticides Control Section:
  - (a) details regarding the type and quantity of each pesticide used, and
  - (b) the name of the vendor/s from whom the pesticide was purchased.

This information shall be submitted no later than **December 31** of each year. Licences for the following season will not be processed until this information is received.

- (6) The operator shall ensure that all application equipment is maintained in good working order to prevent damage to the environment and/ or injury to individuals working with or near the equipment.

#### **4. VEHICLES**

- (1) All vehicles used during the application of pesticides for landscape, structural or industrial vegetation management programs shall have the registered/ incorporated company name, or any other name under which this company trades, as per this pesticide operator licence, prominently displayed on the vehicle. The name shall be displayed on both the driver and passenger sides of vehicle.
- (2) Concentrated pesticides transported in a vehicle during spray operations shall be contained in a lock box, a secure area or compartment which must be locked while unattended.
  - (a) Pesticides shall not be transported in the passenger compartment of any vehicle.
- (3) A quantity of approved absorbent materials shall be on hand at all times in case of a spill. The vehicle shall also carry clean-up equipment including but not limited to, shovels, brooms, and bags/buckets.

#### **5. SPILL REPORTING**

- (1) All spills involving greater than 70 litres of mixed pesticide or the equivalent of unmixed formulation shall be reported immediately.
- (2) All spills involving mixed or unmixed pesticide into a water body or within 100 meters of a water body, well or area frequented by people shall be reported immediately.
- (3) Spills involving less than 70 litres of mixed pesticide or equivalent amount of unmixed formulation in areas not frequented by people, and remote from water bodies or wells shall be duly recorded by the operations supervisor. Records of all such incidents (spills) shall be kept on file by the operator. These records should include details such as date of spill, location, product and quantity, employee on site, and clean up procedure. These records should be submitted to the Pesticide Control Section with the annual summary.
- (4) Reporting of spill incidents shall be made to the Pesticides Control Section, St. John's (ph.1-800-563-6181) and to Environment Canada, St. John's (ph.709-772-2083).

## 6. CONTINGENCY PLAN

A copy of the operator's contingency plan shall be carried in all vehicles transporting liquid pesticide formulations and at the entrance of the operator's approved pesticide storage area.

The contingency plan shall include:

- Section 1 - Emergency Telephone Numbers
- Section 2 - Spill Reporting Instructions
- Section 3 - Emergency First Aid Procedures from Pesticide Labels listed in Appendix A of this document)
- Section 4 - Pesticide Spill Procedure
- Section 5 - Spill Response Kit
- Section 6 - Protocol to Respond to Fires
- Section 7 - Protocol to Respond to Theft
- Section 8 - First Aid Procedures for Pesticide Poisoning
- Section 9 - Pesticide Labels or Material Safety Data Sheets (MSDS) (as listed in Appendix A of this document)

## 7. STORAGE

(1) All pesticide storage sites shall meet the requirements of Section 21 of the *Pesticides Control Regulations, 2012* which are as follows:

- (a) A source of water in an area in or adjacent to the storage area;
- (b) Approved safety equipment as required which is properly maintained, functional and available at all times for personnel handling and working with pesticides;
- (c) Flooring which shall not contain a floor drain or catch basin which is directly or indirectly connected to a private or municipal sewage system or public water course;
- (d) Flooring which shall be capable of being readily cleaned and decontaminated of pesticides stored within;
- (e) Adequate ventilation by either natural or mechanical means so as to prevent the accumulation of toxic or flammable vapours;
- (f) A "Danger Stored Pesticide" sign posted on all entrances which is printed in block letters 5 centimetres or more in height;
- (g) Clean-up procedures consistent with the instructions of the minister or a person designated by the minister; and
- (h) Other provisions which may be stipulated on the licence by the minister or person designated by the minister.

(2) In addition to the above storage requirements, each pesticide storage site shall have prominently displayed on all entrances contact telephone numbers for:

- (a) the operator and
- (b) the Department of Environment and Climate Change, Pesticides Control Section, and indicated accordingly.

(3) All entrances to storage sites shall be locked when the owner or an employee of the owner is not present.

(4) Pesticides shall be stored in their original container or a substitute container approved by the manufacturer. Substitute containers shall be labelled appropriately.

## **8. PROTECTIVE EQUIPMENT**

The operator shall provide and ensure that all personnel involved in the mixing, loading, and application of pesticides wear appropriate protective equipment in accordance with the pesticide manufacturer's product label and/or material safety data sheet.

## **9. DISPOSAL**

(1) Empty pesticide containers which have been triple rinsed, cleaned and rendered unusable may be disposed of at an approved waste disposal site.

(2) Contaminated material shall be disposed of in accordance with the manufacturer's directions and in consultation with the Pesticides Control Section.

## **10. WEATHER CONDITIONS**

(1) All exterior spraying activities, except foliar applications of insecticides to trees taller than three (3) meters, are permitted only when:

- (a) wind speeds are between 2 and 15 km/h,
- (b) air temperatures are below 25° C,
- (c) the relative humidity is above 50%, and
- (d) it is not raining nor is rain anticipated over the next 2 hour period.

(2) Foliar applications of insecticides to trees taller than three (3) meters, are permitted only when:

- (a) wind speeds are between 2 and 10 km/h,
- (b) air temperatures are below 25° C,
- (c) the relative humidity is above 50%, and
- (d) it is not raining nor is rain anticipated over the next 2 hour period.

(3) All exterior granular pesticide applications are permitted only when:

- (a) air temperatures are below 25° C,
- (b) the relative humidity is above 50%, and
- (c) it is not raining nor is rain anticipated over the next 2 hour period.

- (4) Exceptions to weather conditions may be granted on a case by case basis. Contact the Pesticides Control Section for details.

**11. PUBLIC NOTIFICATION**

The operator shall ensure that public notification programs are carried out as per the applicable attachment to these terms and conditions.

**12. BUFFER ZONES**

The operator shall adhere to all buffer zones indicated in the applicable attachment.

**13. ADDITIONAL STIPULATIONS**

The operator shall adhere to all additional conditions stipulated in the applicable attachment.

**14. REVOCATION**

If an operator, its agent, employee or a licensed pesticide applicator under its control, fails to comply with the *Environmental Protection Act SNL 2002 cE-14.2*, the *Pesticides Control Regulations, 2012* or the stipulations attached to its operator licence, the Minister of Environment and Climate Change may suspend, revoke, or cancel the subject licence and/or prosecute under the *Environmental Protection Act SNL 2002 cE-14.2*.

**15. OFFENCE**

An operator, his or her agent, employee or a licenced pesticide applicator under his or her control who does not comply with a term or condition of his or her licence or who contravenes the *Environmental Protection Act SNL 2002 cE-14.2* or the *Pesticides Control Regulations, 2012* is guilty of an offence.

16. The Department of Environment and Climate Change reserves the right to amend the terms and conditions of this licence at any time.

## PESTICIDE OPERATOR LICENCE

### STRUCTURAL

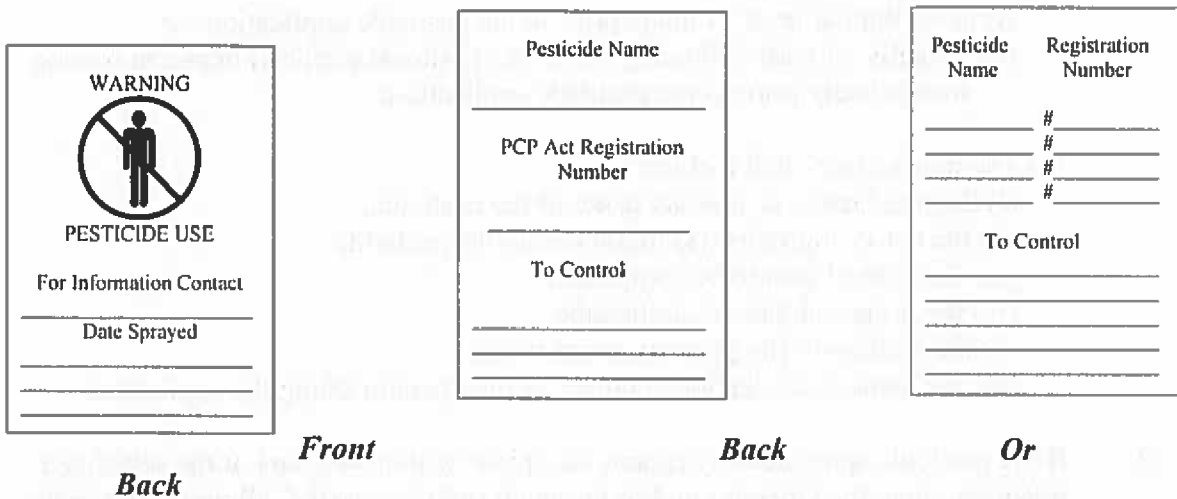

#### **F1. Public notification (Exterior applications)**

- (1) The Operator and/or his agent shall provide notice to all properties that are located within 15 meters of the proposed exterior application, excluding covered baits.
  - (a) The notification shall be:
    - (i) in writing, at least 24 hours prior to the pesticide application; or
    - (ii) verbally, at least 24 hours prior to the pesticide application and in writing immediately prior to the pesticide application.
  - (b) The notification shall include:
    - (i) the trade name or product name of the pesticide,
    - (ii) the active ingredient(s) found within the pesticide,
    - (iii) the type of pest to be controlled,
    - (iv) the proposed date of application,
    - (v) the address of the property being treated,
    - (vi) the name and telephone number of the operator doing the application.
- (2) If the pesticide spray activity cannot take place within 48 hours of the scheduled treatment, then the Operator and/or his agent shall “re-notify” all properties in the same manner indicated above.
- (3) Notification is not required for exterior applications of structural pesticides on or within 1 meter of a structure, unless that structure is located within 1 meter of the property boundary.

#### **F2. Signage**

- (1) For application of commercial or restricted class pesticides including but not limited to private, commercial and municipal properties, the following shall apply:
  - (i) The operator shall place a sign or signs on all properties that have had an exterior pesticide application, excluding covered baits.

- (ii) At the discretion of the operator, the sign or signs should be placed in a manner to ensure high visibility.
  - (iii) The operator shall inform each client that the pesticide spray sign must remain in place for a period of not less than forty-eight (48) hours but not more than ten (10) days after which time the client shall remove the sign.
  - (iv) The sign shall meet the minimum requirements as illustrated in subsection (3).
- (2) Signage is not required for exterior applications of structural pesticides on or within 1 meter of a structure, unless that structure is located within 1 meter of the property boundary.
- (3) The sign must meet the minimum requirements as follows:

*For illustrative purposes only. Sign, pictogram and letters are not drawn to scale.*

The sign and information contained on it must be weather resistant for at least forty-eight (48) hours.

The sign shall be at least twenty-eight (28) centimeters high and twenty-two (22) centimeters wide.

**The front of each sign shall bear:**

The words “WARNING” at the top in capital letters;

Below those words a pictogram showing a single, black silhouette of an adult person on a white background within a red circle crossed by an oblique red bar;

Below the pictogram the words “PESTICIDE USE” in capital letters;

Below those words the words “FOR INFORMATION CONTACT” in capital letters and the company name and telephone number. The Department of Environment and Conservation name and contact number (1-800-563-6181 - St. John’s) must also be placed below the company contact information and identified accordingly;

Below the phone numbers the words “DATE SPRAYED” and the date the treatment begins;

The front of the sign may bear only words and markings that do not detract from the required information, occupying not more than the bottom 2.5 centimeters of the sign, that identify the employer of the person performing the treatment;

The words “WARNING” and “PESTICIDE USE” on the front of each sign shall be printed in red letters and shall be at least 2.5 centimeters high.

All other letters and numbers shall be printed in black and shall be at least 1.0 centimeter high.

**The back of each sign shall bear:**

The word “PESTICIDE” at the top left in capital letters followed by the name of the pesticide used or intended for use;

**And Either:**

Below those words the words “REGISTRATION NUMBER” in capital letters followed by the registration number assigned to the pesticide under the *Pest Control Products Act (Canada)*;

**Or:**

The words “REGISTRATION NUMBER” at the top right in capital letters followed by the registration number assigned to the pesticide under the *Pest Control Products Act (Canada)*;

**And:**

Below those words the words “TO CONTROL” in capital letters followed by the name of the pest to be controlled;

The outer edge of the red circle on the pictogram shall be at least 12.5 cm in diameter on each sign and the width of the circle shall be approximately one-tenth the size of the diameter.

**F3. Invoicing Criteria:**

- (a) All invoices / work orders shall contain, at a minimum, the following information:
  - i. Company Name / Address and POL #;
  - ii. Customer Address and Contact Number;
  - iii. Technician / Applicator Name and PAL#;
  - iv. Technician Signature and Date;
  - v. Pest Issue and Service Provided;
  - vi. Pesticide Used and PCP Registration Number;
  - vii. Treatment Date / Time;
  - viii. Application Procedure;
  - ix. Surface treated; and
  - x. Any special conditions / precautions provided to customer (ie: Re-entry intervals, clean-up procedures).
- (b) Deviations from sample will be accepted as long as all above noted information is contained on Invoice / Work order.
- (c) All invoices must be kept and available for review by an Inspector by the Pesticides Control Section or any other inspector as outlined in the *Environmental Protection Act, 2002*.
