

Government of Newfoundland and Labrador, Public Procurement Agency

**Report to Chief Procurement Officer, Public Procurement Agency
(Pursuant to Section 32 of the Public Procurement Regulations)**

Version 2 - 2019 - 04-01

CONTRACT AWARD WITHOUT AN OPEN CALL FOR BIDS - JULY 26, 2019 TO AUGUST 2, 2019

Legal Name of Public Body	Contract Description	Contractor Name	Contractor Location (CITY/TOWN)	Contract Location (PROVINCE/STATE)	Contract Price (Exclusive of HST)	Contract # or PO#	Date of Award	The Terms of Contract	Renewal Options of Contract	Relevant Exception Clause	Reason Why An Open Call for Bids Was Not Initiated
Department of Transportation and Works - Marine Service	Mermaid Thruster Upgrade	Kongsberg	St. John's, NL	NL	\$ 55,313.00	219013311	7/22/2019	N/A	N/A	6(a)(v) only available source	The Chief has highlighted a necessary upgrade for the Thruster units on the Legionnaire. This upgrade will allow Thrusters to be automatically stopped and held when Variable Frequency Drive is de-energized to prevent voltage that is being created within the motor from being conducted back into the Drive. The supplier of the Drive (inverter) warns this condition to be dangerous to equipment and personnel. The Royal Newfoundland Constabulary's (RNC) Computer Forensics Unit (CFU) have been using forensic workstations for evidence photographing, cell phone acquisition and analysis, and hard drive acquisition and analysis since before 2015. The current workstations are now outdated due to changing technology and are struggling to keep up to the increased processing demands of newer forensic software and the larger data sets being acquired from digital evidence. These challenges mean longer turnaround times to acquire and analyze the data which result in longer delays in completing examinations. The average life of a workstation is four to six years. The TALIND KA-101 Forensic Workstation is an entry level but high end forensic workstation. This system was designed to cater to all organizations in need of a forensic workstation with a limited budget. However, this particular computer is highly scalable and has an extremely fast processor. These workstations will address the challenges of the current workstations through more current hardware and software thereby improving work productivity. Other non-forensic workstations are available. However, they would have to be modified to meet the same specifications and additional hardware would have to be purchased separately. Additional hardware would not be covered under the same warranty. SUNMIR LLC is the sole supplier of the product. The TALIND KA-101 Forensic Workstation is only available directly from the US based company or through the only authorized Canadian reseller Teal Technologies Canada.
Department of Justice and Public Safety/Royal Newfoundland Constabulary	Forensic Workstations	Teal Technologies Canada	Victoria	BC	\$15,990 (USD)	219013339	7/22/2019	N/A	N/A	6(a)(v) only available source	Only available from software provider.

This upgrade will allow Thrusters to be automatically stopped and held when Variable Frequency Drive is de-energized to prevent voltage that is being created within the motor from being conducted back into the Drive. The supplier of the Drive (inverter) warns this condition to be dangerous to equipment and personnel.
Department of Children, Seniors and Social Development	Provide post-implementation support to e.g. technical assistance, refresh training webinars and consultation, curriculum updates of the Structured Decision Making Model used in the Protective Intervention Program.	Children's Research Center	Oakland	CA, USA	\$102,400(USD)	PQ219013965 119008544	7/30/2019	N/A	N/A	6(a)(v) only available source	The Children's Research Center developed and owns all intellectual property rights and title to the Structured Decision Making (SDM) model. On November 21, 2013, the former Department of Child, Youth and Family Services (CYFS) received Cabinet approval to sole source with the CRC to customize, implement and evaluate the SDMB model. In March 2014, the former CYFS signed a contract with NCCD for the customization of the SDMB model and development of the SDMB training curriculum. In October 2017, CSED signed another contract with NCCD for the implementation of SDMB, which included training all social work staff in the SDMB model. CSED is currently in the post implementation phase of SDMB implementation. In December 2018, CSED signed a post implementation contract with the CRC until March 2019. The departmental budget for 19/20 includes \$160,400 for the continued support of the post implementation phase of SDMB. This funding is included in activity Profiles and Programs, 1.2.03 - Professional Services.
