

Time

Noun – The indefinite continued progress of existence and events in the past, present and future, regarded as a whole.

That's how the Compact Oxford English Dictionary regards time.

I regard time as a form of sequences.

Playing tricks on you.

Passing...

Slowly...

When at that particular moment, you want it to go fast.

Rushing...

Quickly...

When, you want it to go slow.

Most people,  
Adapt a routine.

For some,

Wake up.  
Eat breakfast.  
Go to work.  
Eat lunch.  
Come home.  
Eat dinner.  
Go to bed.

Et cetera  
Et cetera  
And other similar things,  
And so on.  
Over...  
And.  
Over...

When you find your  
Routine.

Time...  
Seems...

To go...  
Faster.

For me,

Time,  
Is a sequence,  
Of happenings.  
That I ignore completely.

I,  
Chose to go through life,  
In the body of,

A dreamer.
