

Tonight is the Night.....

By: Michael O'Keefe

Tonight is the night,
The moon is bright,
The children all are spooked.
Black bats fly across the sky
And goblins prowl for loot.

Tonight is the night,
The moon is bright,
The witches are on their brooms.
Pumpkins stare through the cold night air
And ghosts rise from their tombs.

Tonight is the night,
The moon is bright,
The dead leaves swirl around.
Werewolves howl and vampires prowl
And skeletons hide in the ground.

Tonight is the night,
The moon is bright,
The trees creak to and fro.
Costumes fit and flashlights lit
And off the children go.

Tonight is the night,
The moon is bright,
Will it be treat or trick?
The old troll brews the witches stew
And, the children, their candy lick.

Tonight is the night,
The moon is bright,
The cats' eyes glow bright green.
In the midnight gloom, bonfires loom
Tonight is Halloween!
