## Two years after introducing a Five-Year Provincial Roads Plan, the Department of Transportation and Works has clear evidence the plan is working.

- Contractors are starting road construction as soon as weather conditions allow.
- In 2017, the first year of the plan, contractors hired by the department paved more than 600 lane kilometres.
- In 2018, contractors paved more than 800 lane kilometres.

**Both totals surpassed amounts of paving completed in previous years.**

# Why it works

## Early tenders

Tenders for road work are issued early in the year so that contractors can be better prepared for the upcoming road construction season. They can plan their work with consideration for our vast geography, make informed investments in their equipment, keep their employees working in the province and start improving roads as soon as the weather allows.

## Did you know?

Tenders for this coming road construction season began being issued in December 2018.

## Early starts

Issuing tenders earlier in the year and starting work as soon as the weather allows, as opposed to mid-summer, means some projects are getting completed in May and June and more work is completed by the end of the construction season.

Last year, we announced 75 per cent of the projects planned for 2019-20. This year, we've added the remaining 25 per cent based on emerging issues, input from engineers, and input from residents.

We've also added another 25 per cent to two of the three following years and added 25 per cent of the projects for 2023-24.

Year	Previous Announced	Updated Percentage
2019-20	75%	100%
2020-21	50%	75%
2021-22	25%	50%
2022-23	25%	25%
2023-24	0%	25%

## The Ranking Process

Engineering assessments and thresholds have been developed in consultation with the department's engineers, drawing on metrics such as the International Roughness Index, rutting depths, provincial bridge inspections, road classification, Annual Average Daily Traffic volumes and other advanced pavement data collected using the Automatic Road Analyzer unit.

The ranking involves an assessment of measures such as reliability, safety and usage. Each measure is given a weighting, with significant value assigned to the reliability of the infrastructure to address issues before they become significant safety concerns.

## Public Consultation

To inform the 2019 edition of the plan, a public consultation was held from September to November 2019. Through this process, 326 submissions were received from the general public identifying various roads related issues. These submissions were considered in the development of the plan.

## Did you know?

Road projects included in the plan are based on factors such as safety, traffic volumes, advice from the department's engineers and input from the general public.

## Asphalt Testing

An asphalt testing pilot project began in 2017 to examine the asphalt specifications best suited for our province's climate and environment.

Five sections of the Trans-Canada Highway between Foxtrap and Holyrood were paved using different types of liquid asphalt. Each section is approximately one kilometre in length and is monitored twice annually—in the spring and in the fall—to determine how well it is performing based on factors such as traffic volumes and weather conditions.

In further consultation with the Heavy Civil Association of Newfoundland and Labrador, a sixth test section was added in 2018 using specifications from the association.

Data from the test strips were monitored in spring and fall 2018. Multiple years of monitoring are required to draw conclusions and there has been little deviation in mixes and compaction from when these sections were paved so far.

## Highway Cameras

The Department of Transportation and Works currently has 35 highway cameras throughout the province that allow residents and visitors to check highway conditions before they travel.

The department continues to expand its highway camera network with a recent installation at St. George's. Cameras for Rocky Harbour, Lumsden and Stephenville will be installed in the coming months, while new cameras will be installed on the Argentia Access Road and Hearts Content Barrens this spring.

## Brush Clearing and Moose Awareness

The Provincial Government allocated more than \$4 million over the last two years to clear brush from alongside provincial highways.

This has resulted in over 800 hectares of brush clearing, making it easier for motorists to spot animals near the highway, especially near heavily forested areas. Brush clearing also makes highway signs easier to see, increases visibility in areas with turns and hills, and provides more space for snow removal.

The Department of Transportation and Works funded SOPAC (Save Our people Action Committee) with \$27,500 in 2018 for a moose reporting hotline as well as public education through social media and radio advertising.

Brush clearing is an important part of keeping highways safe and government will continue its work with SOPAC and its investments in brush clearing in 2019-20.

# Federal-Provincial Cost-Shared Projects

The Government of Newfoundland and Labrador partners with the Government of Canada to avail of infrastructure programs such as the Investing in Canada Plan to invest in important transportation links in the National Highway System, regional trunk roads and local roads.

Beginning this year, work will begin on the Burin Peninsula Highway to repave sections from Garden Cove through Swift Current towards Kilmory Resort and upgrade McGettigan Boulevard in Marystown. Work will also begin on Route 430 to upgrade and resurface sections from Western Brook to Green Island Cove and widen a section from Deer Lake to Cormack.

## Did you know?

Lane kilometres is a term used by the road construction industry across North America and provides a clearer understanding of the amount of asphalt used and time and money spent paving roads. For example: paving all four lanes on a 10 kilometre section of highway for a total of 40 lane kilometres would use more asphalt, cost more money, and take longer to complete than a two lane 10 kilometre section of road.

## Labrador Investments

Road improvement projects will continue on the Trans-Labrador Highway this year.

Over the past three years, we have invested approximately \$85 million to completely pave the Trans-Labrador Highway. Matched investments from the Government of Canada will result in a total combined investment of more than \$171 million.

There are approximately 180 kilometres of highway left to be paved. By the end of this year, all remaining road construction contracts are anticipated to be awarded.

The work could be complete by the end of 2020 depending on weather conditions and contractor productivity.

In addition, 22 kilometres of road was re-paved between the Quebec border near L'Anse au Clair towards L'Anse au Loup. This work will continue for another 22 kilometres towards Pinware in 2019.

## **Team Gushue Highway**

2018 was a milestone year for the Team Gushue Highway with the opening of the the section from Kenmount Road to Topsail Road in December. The new section extended the highway 4.2 kilometres from Kenmount Road to Topsail Road. To complete the new route across the City of St. John's, it was necessary to construct five concrete overpasses, 16 ramps, a roundabout at the Blackmarsh Road interchange, and Brier Avenue – a new road linking Old Penneywell Road to the highway.

Work on the final section of the highway to connect it with the Robert E Howlett Highway will begin in 2019.

## **Rural and Local Roads**

Beginning this year, the Provincial Government will invest \$104 million, including \$52 million from the Federal Government, over the next 10 years to upgrade local roads in need of repair in rural areas of the province. Criteria for these projects will be similar to criteria used in the 5 Year Roads Plan, with an emphasis on supporting areas with lower traffic volumes but vital to local industries such as tourism, agriculture and the fishery.

The multi-year plan for this funding will be announced this winter.

## **Veterans Memorial Highway**

In June 2018, the Provincial Government and Federal Government invested approximately \$4.8 million in funding for improvements to the Veterans Memorial Highway.

Work to construct four climbing lanes on the highway commenced in 2018. This funding also included the creation of additional ramps at the Valley Road interchange on Route 70 in Carbonear. This work will be completed in 2019, including the addition of centre line rumble strips on Veterans Memorial Highway.

Digital speed signs warning motorists travelling above the speed limit will be installed on the highway this spring. The department is also working with advocacy groups to install distracted driver prevention signage along the highway.

## **Disaster Mitigation and Adaptation Fund**

The Department of Transportation and Works has submitted an application to the Government of Canada for the replacement of five key provincial highway bridges under the Disaster Mitigation and Adaptation Fund. This fund is designed to help provinces manage the risks of disasters triggered by natural hazards. This includes replacing bridges with larger capacity structures to mitigate risks of washouts during major rain events.

Federal funding approvals will be released in spring 2019.

## **Trade and Transportation**

Transport Canada's National Trade Corridors Fund supports trade corridor-related infrastructure projects throughout Canada and has called for submissions that focus on trade diversification projects in line with the objectives of the federal Export Diversification Strategy that was announced in the federal 2018 Fall Economic Statement.

The department is identifying provincial projects that align with these objectives to be submitted for consideration of the fund in 2019.

## **Disaster Financial Assistance Arrangement**

The Government of Canada provides financial assistance to provincial and territorial governments through the Disaster Financial Assistance Arrangements (DFAA) when hit by natural disasters.

In 2019, the department will be concluding work on the Swanger's Cove Bridge that was washed out in the Thanksgiving rain storm of 2016 and continuing projects on the west coast as a result of the January 2017 rain storm.

## Projects Planned for 2019-20

Route No.	Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
1	Trans-Canada Highway	Paving sections between Whitbourne and St. John's	5	5	5	400
1	Trans-Canada Highway	Paving sections of divided highway through Grand Falls-Windsor	5	5	5	400
1	Trans-Canada Highway	Rehabilitate two culverts at Collier Bay Brook and Beaver Pond Brook	5	5	5	400
1	Trans-Canada Highway	Replace Johns Brook Bridge	5	5	5	400
1	Trans-Canada Highway	Paving sections from Deer Lake to Corner Brook	5	5	4	390
1	Trans-Canada Highway	Paving sections from Jumpers Brook Bridge to Bay d'Espoir Intersection	3	5	5	360
1	Trans-Canada Highway	Paving sections through Gander	4	5	5	380
1	Trans-Canada Highway	Paving sections from Glovertown Interchange to Gambo River Bridge	4	4	5	330
1	Trans-Canada Highway	Paving sections from the T'Railway Underpass in Clarenville to Stanley's Siding	4	4	5	330
1	Trans-Canada Highway	Rehabilitate Gambo River Bridge	5	4	5	350
1	Trans-Canada Highway	Rehabilitate Badger Brook Bridge	4	4	3	310
1	Trans-Canada Highway	Rehabilitate Union Street Underpass at Grand Falls-Windsor	5	3	5	300
2	Pitts Memorial Drive	Rehabilitate CN Viaduct, St. John's	5	5	5	400
2	Pitts Memorial Drive	Rehabilitate and replace median lights	5	5	5	400
2	Pitts Memorial Drive and Peacekeepers Way	Paving sections of east and west bound lanes	5	4	5	350

Route No.	Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
2	Peacekeepers Way	Easons Road Bailey Bridge rehabilitation	5	5	0	350
10	Southern Shore Highway	Replace Renews Harbour Bridge	5	5	3	380
10	Southern Shore Highway	Replace Mutton Bay Bridge near Trepassey	4	4	3	310
10	Southern Shore Highway	Paving sections from Capahayden towards Chance Cove Park	2	5	1	300
30-12	Logy Bay Road	Realign road	1	4	0	220
60	Conception Bay Highway	Rehabilitation of drainage system near Kittyade's Turn	5	4	5	350
70	Conception Bay Highway	Replace North River Bridge near Clarke's Beach	4	5	4	370
70	Conception Bay Highway	Paving sections from Caplin Cove to Kingston	3	5	1	320
70	Conception Bay Highway	Paving through Spaniard's Bay	4	4	2	300
75	Veterans Memorial Highway	Paving sections of Veterans Memorial Highway from Trans-Canada Highway to Victoria	4	5	5	380
80	Trinity South Highway	Paving sections from Hants Harbour to Winterton	2	5	1	300
90	Salmonier Line	Paving sections from St. Vincent's to Riverhead	2	5	2	310
91	Old Placentia Highway	Paving sections from St. Catherine's to North Harbour Road (Nine Mile Road)	5	4	2	320
92	North Harbour-Branch Highway	Rehabilitate Red Head River Bridge, Beckford River Bridge, Shoe Cover Bridge	5	5	2	370

Route No.	Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
100	Argentia Road	Replace Little Barasway Brook Bridge	3	5	4	350
210	Burin Peninsula Highway	Replace culvert near Clancy's Brook	5	5	4	390
210	Burin Peninsula Highway	Replace culverts near Boat Harbour and Parkers Cove	5	5	4	390
210	Burin Peninsula Highway	Paving sections from Grand Beach through Grand Bank	2	5	4	330
220	Burin Peninsula Highway	Paving sections from St. Lawrence towards Lawn	1	5	2	290
230	Bonavista Peninsula Highway	Paving sections through Bonavista	3	5	3	340
230A	George's Brook Road	Rehabilitate George's Brook Bridge	4	5	4	370
310	Road to the Beaches	Rehabilitate Penny's Brook culvert in Glovertown	5	5	2	370
320	Bonavista North Highway	Paving sections from Greenspond towards New-Wes-Valley	4	5	2	350
320	Bonavista North Highway	Paving sections through Gambo	2	5	3	320
330	Gander Bay Highway	Paving sections from Straight Shore to Deadman's Bay	4	5	2	350
330	Gander Bay Highway	Culvert replacement, various locations	5	4	4	340
340	Road to the Isles	Paving sections from Michael's Harbour to Boyd's Cove	4	5	4	370
340	Road to the Isles	Paving sections from TCH to Lewisporte	4	4	4	320
360	Bay d'Espoir Highway	Rehabilitate Twillick Brook Bridge	4	4	3	310
420	White Bay South Highway	Paving sections from Hampden exit to Main River Bridge	2	5	2	310

Route No.	Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
430	Viking Trail	Rehabilitate Doctor's Brook Bridge	5	5	3	380
434	Conche Road	Continuation of paving (pilot project)	2	4	1	250
450	Lewin Parkway	Paving sections from Wheelers Road to Curling Exit	4	5	4	370
450	Bay of Islands South Highway	Rehabilitate Blow Me Down Brook Bridge	4	4	1	290
460	Hansen Memorial Highway	Replace culverts, various locations	2	5	3	320
463	Lourdes Road	Paving sections from Lourdes to Cape St. George	3	4	2	280
480	Burgeo Highway	Paving sections of Burgeo Highway	2	5	2	310
490	Stephenville Access Road	Paving sections from TCH to Hansen Memorial Highway	3	5	3	340
500	Trans-Labrador Highway	Rehabilitate Wabush Narrows Bridge, Mountain Brook Bridge and East Wilson River Bridge	5	4	4	340
510	Trans-Labrador Highway	Sealing of asphalt cracks on Trans-Labrador Highway	NA	NA	NA	NA
510	Trans-Labrador Highway	Subgrade repair near Kenamu Valley	1	3	4	210
510	Trans-Labrador Highway	Paving at Branch Road, L'Anse au Loup	4	2	1	190

## Projects Continuing in 2019-20

Route No.	Name	Description
1	Trans-Canada Highway	Replace West Bottom Brook Bridge near South Brook
91	Old Placentia Highway	Replace Rocky Island Pond Bridge
391	Harry's Harbour Road	Paving sections from intersection with Route 390 to King's Point

## Projects Planned for 2020-21

Route No.	Highway Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
1	Trans-Canada Highway	Paving sections of TCH divided highway through Grand Falls-Windsor	5	5	5	400
1	Trans-Canada Highway	Replace Johns Brook Bridge	5	5	5	400
1	Trans-Canada Highway	Paving sections of TCH from Deer Lake to Corner Brook	5	5	4	390
1	Trans-Canada Highway	Paving TCH from Cape Ray to North Branch	3	5	5	360
1	Trans-Canada Highway	Rehabilitate Glovertown Underpass	5	4	5	330
1	Trans-Canada Highway	Paving sections of TCH from Shoal Harbour River to Port Blandford	5	5	4	390
1	Trans-Canada Highway	Replace Shoal Harbour CNR Overpass	3	3	5	260

Route No.	Highway Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
1	Trans-Canada Highway	Replace Shoal Harbour River Bridge	3	3	5	260
2	Pitts Memorial Highway	Rehabilitate CN Viaduct, St. John's	5	5	5	400
2	Pitts Memorial Highway	Rehabilitate and replace median lights	5	5	5	400
10	Southern Shore Highway	Replace Mutton Bay Bridge near Trepassey	4	4	3	310
10	Southern Shore Highway	Paving sections from Capahayden towards Chance Cove Park	2	5	1	300
70	Conception Bay North Highway	Replace North River Bridge, near Clarke's Beach	4	5	4	370
75	Veterans Memorial Highway	Paving sections from TCH to Victoria	4	5	5	380
80	Trinity South Highway	Replace Brownsdale Brook Bridge	2	5	1	300
80	Trinity South Highway	Paving sections from Winterton to Blaketown	3	4	2	300
90	Salmonier Line	Paving sections from St. Vincent's to Riverhead	2	5	2	310
91	Old Placentia Highway	Paving sections from St. Catherine's to North Harbour Road (Nine Mile Road)	2	5	1	300
100	Argentia Road	Replace Little Barasway Brook Bridge	3	5	4	350
220	Burin Peninsula Highway	Paving sections from St. Lawrence towards Lawn	3	5	2	330
320	Bonavista North Highway	Paving sections from Greenspond towards New-Wes-Valley	5	5	3	380

Route No.	Highway Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
320	Bonavista North Highway	Paving sections through Gambo	2	5	3	320
330	Gander Bay Highway	Paving sections from Deadman's Bay to Templeman	4	5	2	350
330	Gander Bay Highway	Paving sections from Straight Shore to Deadman's Bay	4	5	1	340
330	Gander Bay Highway	Replacing culverts, various locations	5	4	4	340
335	Stoneville Road	Paving sections along Stoneville Road	2	5	2	310
340	Road to the Isles	Paving sections from Michael's Harbour to Boyd's Cove	4	5	4	370
340	Road to the Isles	Paving sections from TCH to Lewisporte	4	4	4	320
360	Bay d'Espoir Highway	Paving sections from Conne River to Little River	3	5	2	330
412	Seal Cove Road	Paving and guiderail repairs	4	5	1	340
434	Conche Road	Continuing paving, pilot project	2	4	1	250
460	Hansen Memorial Highway	Paving sections from Trans-Canada Highway to Gull Pond Area	3	5	4	350
460	Hansen Memorial Highway	Replace culverts, various locations	2	5	3	320
460	Hansen Memorial Highway	Paving sections from Stephenville to Cape St. George	2	5	2	310
463	Lourdes Road	Paving sections from Lourdes to Cape St. George	3	4	2	280
480	Burgeo Highway	Paving sections	2	5	2	310

## Projects Planned for 2021

Route No.	Highway Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
1	Trans-Canada Highway	Paving TCH from Cape Ray to North Branch	3	5	5	360
1	Trans-Canada Highway	Paving sections of TCH from Shoal Harbour River to Port Blandford	5	4	2	320
1	Trans-Canada Highway	Replace Shoal Harbour River Bridge	3	3	5	260
2	Pitt's Memorial Highway	Rehabilitate CN Viaduct, St. John's	5	5	5	400
2	Pitt's Memorial Highway	Rehabilitate and replace median lights	5	5	5	400
10	Southern Shore Highway	Paving sections from Capahayden towards Chance Cove Park	2	5	1	300
80	Trinity South Highway	Paving sections from Winterton to Blaketown	3	4	2	300
320	Bonavista North Highway	Paving sections from Greenspond towards New-Wes-Valley	5	5	3	380
330	Gander Bay Highway	Paving sections of Gander Bay Road from Deadman's Bay to Templeman	4	5	2	350
330	Gander Bay Highway	Replace culverts, various locations	5	4	4	340
340	Road to the Isles	Paving various sections of Road to the Isles from Michael's Harbour to Boyd's Cove	4	5	4	370
360	Bay d'Espoir Highway	Replacement of Miguels Brook Bridge	5	4	3	330
360	Bay d'Espoir Highway	Paving sections of Bay d'Espoir Highway from Berry Hill Brook	3	4	3	290
412	Seal Cove Road	Paving and guiderail repairs along sections of Seal Cove Road	4	5	1	340
440	Bay of Islands North Highway	Replace Hughes Brook Bridge	5	4	3	330
470	La Poile Highway	Paving sections along La Poile Highway	4	5	3	360
480	Burgeo Highway	Paving sections of Burgeo Highway	2	5	2	310

## Projects Planned for 2022

Route No.	Highway Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
1	Trans-Canada Highway	Paving TCH from Cape Ray to North Branch	3	5	5	360
10	Southern Shore Highway	Paving sections along Southern Shore Highway from Capahayden towards Chance Cove Park	2	5	1	300
340	Road to the Isles	Paving various sections of Road to the Isles from Michael's Harbour to Boyd's Cove	4	5	4	370
360	Bay d'Espoir Highway	Replace Conne River Bridge	4	4	3	310
360	Bay d'Espoir Highway	Paving sections from Berry Hill Brook	3	4	3	290
420	White Bay South Highway	Paving sections from Hampden exit to Main River Bridge	2	5	2	310
470	La Poile Highway	Paving sections along La Poile Highway	4	5	3	360

## Projects Planned for 2023

Route No.	Highway Name	Description	Safety	Reliability	Usage	Ranking Score out of 400
61	Foxtrap Access Road	Paving sections of Foxtrap Access Road	5	4	5	350
230A	George's Brook Road	Replace George's Brook Bridge	5	5	4	390
360	Bay d'Espoir Highway	Replace Conne River Bridge	4	4	3	310
450	Bay of Islands South Highway	Rehabilitate Humber Road interchange Bridge #4	5	5	4	390

## Projects Completed in 2018-19

Route No.	Name	Description
1	Trans-Canada Highway	Paving TCH East and West bound lanes
1	Trans-Canada Highway	Replace culvert along TCH near Little Rapids
1	Trans-Canada Highway	Paving sections of the TCH between Goobies and Clarenville
2	Peacekeepers Way	Paving Peacekeepers Way from Ruth Ave to Seal Cove
3	Team Gushue Highway	Paving sections on Robert E Howlett Highway from Raymond's Bridge to Route 10
10	Southern Shore Highway	Replace Old Woman's Brook Bridge on Southern Shore Highway near Renews
60	Conception Bay Highway	Paving sections along Route 60 from Foxtrap Access Road to Red Bridge Road
60	Conception Bay Highway	Rehabilitate Quarry Brook Bridge
60	Conception Bay Highway	Rehabilitate North Arm Bridge #2 on Conception Bay Highway near Holyrood
70	Conception Bay North Highway	Paving sections of Route 70
70	Conception Bay North Highway	Paving from Bristol's Hope Intersection to CHVO Drive
70	Conception Bay North Highway	Paving sections from Caplin Cove towards Lower Island Cover (Flambro Head)
70	Conception Bay North Highway	Replace Freshwater Pond Brook Bridge on Conception Bay North Highway near Clown's Cove
70	Conception Bay North Highway	Add new turn access ramps - Valley Road

Route No.	Name	Description
74	Heart's Content Highway	Pulverize and repave from Heart's Content Barrens to Victoria
80	Trinity South Highway	Replace Brownsdale River Bridge #1 on Route 80, Trinity Road
80	Trinity South Highway	Paving sections on Trinity Road near New Chelsea-New Melbourne
90	Salmonier Line	Paving sections on Salmonier Line from TCH to Holyrood
90	Salmonier Line	Paving sections of Salmonier Line from St. Joseph's to Riverhead
201	Chapel Arm-Bellevue Road	Replace culvert on Chapel Arm-Bellevue Road near Chance Cove
210	Burin Peninsula Highway	Repair frost bumps between Clam Brook and Boat Harbour
212	Bay l'Argent Road	Replace culvert on Route 212 near Harbour Mille
214	Monkstown Road	Replace two culverts on Route 214 Monkstown Road and one culvert on Route 211-10 near Terrenceville
220	Burin Peninsula Highway	Paving sections of Burin Peninsula Highway between Fortune and Grand Bank
220	Burin Peninsula Highway	Replace three culverts near Fortune
230	Bonavista Highway	Paving sections of Bonavista Peninsula Highway, through Lethbridge from its' intersection with Route 233, Clode Sound Highway to its' intersection with Route 234, Winterbrook Road
231	Random Island Road	Replace two culverts on Random Island
231-17-2		Replacement of Culvert in Hickman's Harbour
233	Clode Sound Road	Paving section from Musgravetown to Bunyan's Cove
238	Elliston Road	Paving sections of Route 238 from Route 230 intersection through Elliston to Route 230 Intersection in Bonavista

Route No.	Name	Description
320	Bonavista North Highway	Paving from Indian Bay Bridge towards Templeman
340	Road to the Isles	Replace culvert at Jumpers Brook
340	Road to the Isles	Paving Road to the Isles from Boyd's Cove to L Curtis Causeway
350	Botwood Highway	Paving sections along Botwood Highway
352	Fortune Harbour Road	Upgrade and repave various sections from Fortune Harbour Road, near Fortune Harbour
370	Buchans Highway	Resurface from Buchans Junction towards Buchans
392	Little Bay Road	Replace various sections of Guiderail along Little Bay Road
413	Burlington Road	Replace culvert at Cross Country
414	La Scie Road	Paving sections along La Scie Road
415	Nipper's Harbour Road	Replace culvert at Buxom Brook
420	White Bay South Highway	Extension of paving in Hampton area
430	Viking Trail	Paving section from Cooks Harbour Access Road to Airport
430-28	Port au Choix	Paving Port au Choix local roads
433	Englee Highway	Paving sections from Roddickton to Englee
434	Conche Road	Completion of Conche Road (Pilot Project - Subgrade)
436	L'Anse aux Meadows Road	Pave sections from St. Lunaire to Lanse aux Meadows
460	Hansen Memorial Highway	Pulverize, reshape, widen and pave from Noels Pond to Brookside

Route No.	Name	Description
470	La Poile Highway	Rehabilitate Herring Hole Brook Bridge (Bottom Brook) on La Poile Highway
480	Burgeo Highway	Replace culverts along Burgeo Highway
490	Stephenville Access Road	Install erosion protection on Stephenville Access Road near Bay St. George long-term care facility
510	Trans-Labrador Highway	TLH Pave Lodge Bay to Cartwright Junction
510	Trans-Labrador Highway	MG1 Resurfacing of Mary's Harbour Access Road
